## FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference,
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for

compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with a minimum distance between 20cm the radiator your body: Use only the supplied antenna.

## **Frequently Asked Questions**

Can I use a different antenna with the product?

It is recommended to use only the supplied antenna to ensure proper operation and compliance with safety guidelines.

How do I ensure compliance with the FCC's RF Exposure guidelines?

Maintain a minimum distance of 20cm between the radiator and your body while operating the equipment.

Can two mobile phones be connected to one camera at the same time?

The camera can only be added by one account, and multiple mobile phones can be viewed by sharing the device or logging in to the same account through multiple mobile phones

Can I connect to the camera without WiFi?

No, the camera needs to be connected to a WiFi network to use.

Check the playback prompt SD card not detected?

Check if the memory card is correctly inserted into the camera.

How to change the network connection?

Long-press the camera reset button until the reset is successful, then restart and connect.

The camera prompts to be offline?

Check whether the WiFi network is normal, and check whether the power supply is working properly
