EX7 V2 Standalone Keypad

The EX7 V2 Standalone Keypad is a device designed for secure access control. It features a tamper switch and can be used with 12/24V DC or AC power supplies. The keypad includes memory positions for user codes and relays that can be assigned using the programming flowchart.

Features

- · Secure access control
- Tamper switch
- Can be used with 12/24V DC or AC power supplies
- · Memory positions for user codes and relays

Mounting

The keypad should be mounted using three 4×30 mm screws and two M3 $\times 6$ mm security screws. The mounting hole should be 6mm in diameter. A jumper on the device should be open for normal operation.

Programming Flowchart

The programming flowchart allows you to assign user codes and relays to memory positions. To assign a user code, enter the master code followed by the memory position and user code. To assign a relay, enter the master code followed by the memory position, relay number, and desired mode of operation.

Applications

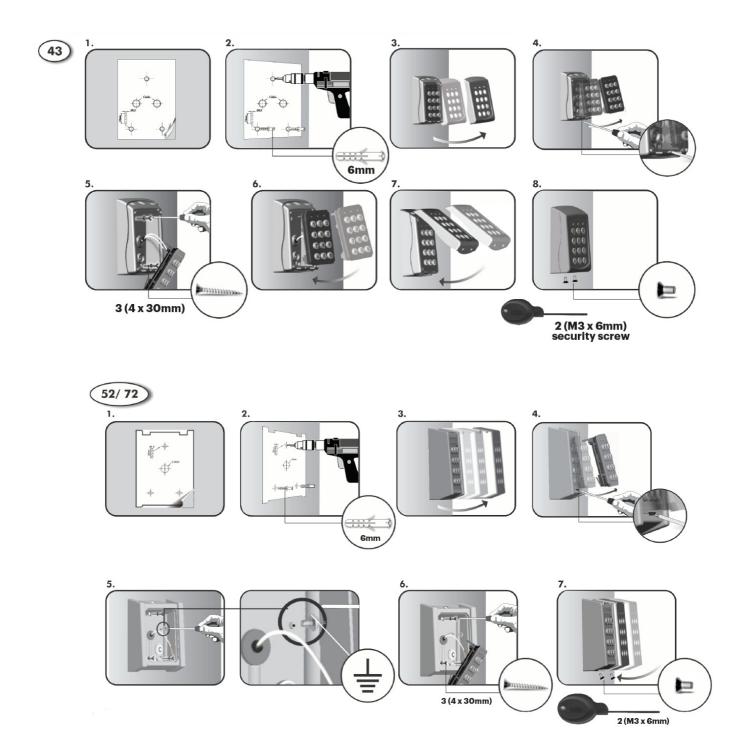

The EX7 V2 Standalone Keypad can be used for a variety of applications including alarm systems, push button access control, blinds, and gates.

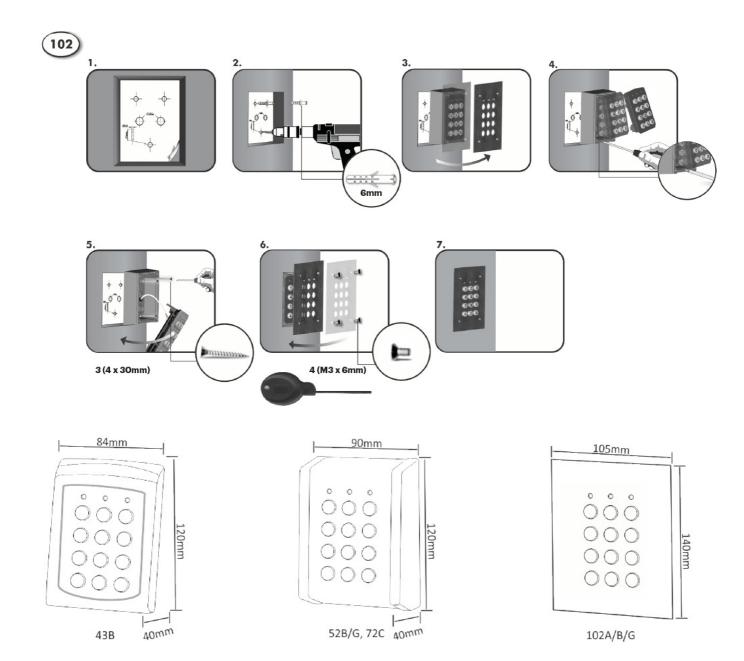

FEATURES

- Operates on 12/24V AC/DC Backlit keys (metal or plastic)
- 99 User codes (1 to 8 digits)
- 30 second lockout after 8 invalid attempts
- 2 free tension LEDs (Red & Green)
- 4 relays (R1/R2/R3/R4: 3A/24V AC/DC)

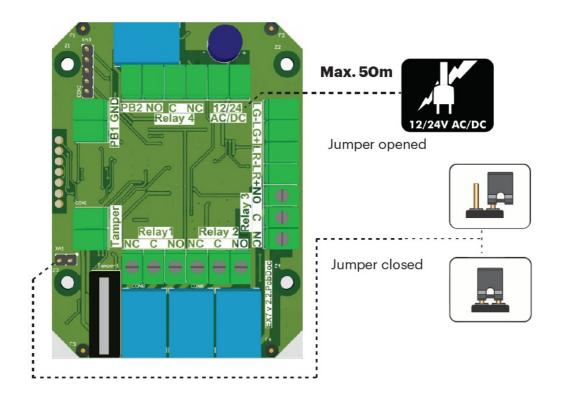

- Relay in latch (00) or pulsed mode (01 to 99 sec)
- 2 Pushbuttons to operate relays
- Current Consumption Standby: 26 mA Maximum: 140 mA
- Dustproof and waterproof (IP65)

MOUNTING

PROGRAMMING FLOWCHART

Notes

Memory Position for User Code is always 2 digits

* no need to validate with A

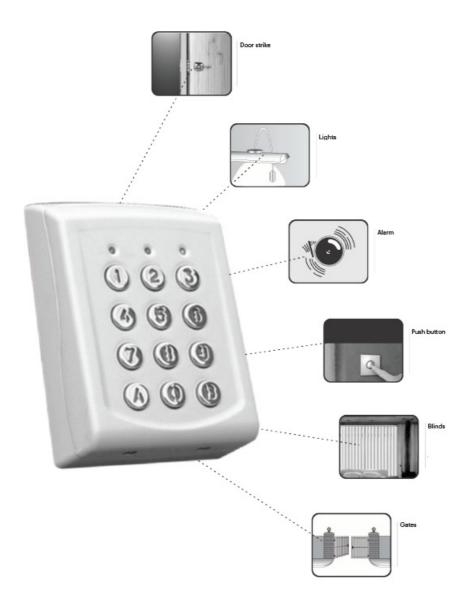

Assign Examples

Ex.1: To assign User Code "12345" at Memory Position "5" and Relay 1 (2A) in Latch Mode assuming Master
Code = 000

Pre 000Bss + 0 + 05 + 12345 + A + 7 + 05 + 1 + A + 1 + 00 + A + B.

Ex. 2: To assign User Code "6789" at Memory Position "6" and Relay 2 that activates for 5 seconds assuming
Master Code = 000

APPLICATIONS

This product herewith complies with requirements of EMC directive 2014/30/EU. In addition it complies with RoHS2 directive EN50581:2012 and RoHS3 Directive 2015/863/EU.
