## Instructions for use

1. Before setting up your Xumo Stream Box, make sure your internet connection and WiFi are set up and turned on, and you have the network name and password ready. You will also need a separate device with internet browser access to complete activation.

NOTE: You can also use an Ethernet cable (not included) to set up a wired connection instead.

1

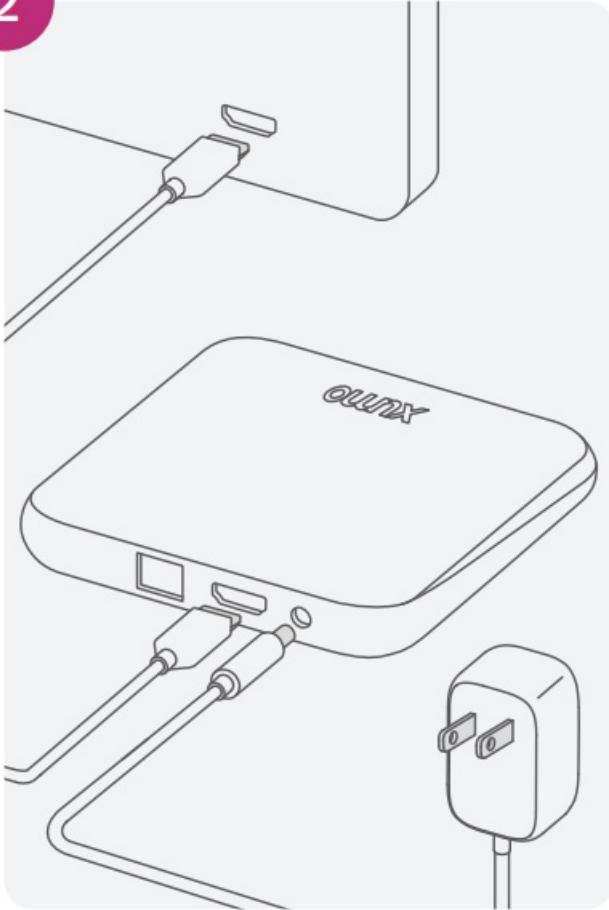

2. Connect the HDMI cable to your Xumo Stream Box and TV, then plug the power supply into an electrical outlet. When the power indicator lights up, you can turn on your TV and select the correct HDMI source using INPUT or SOURCE on your TV or TV remote.

NOTE: Only use the supplied power adapter.

Avoid outlets controlled by dimmers.

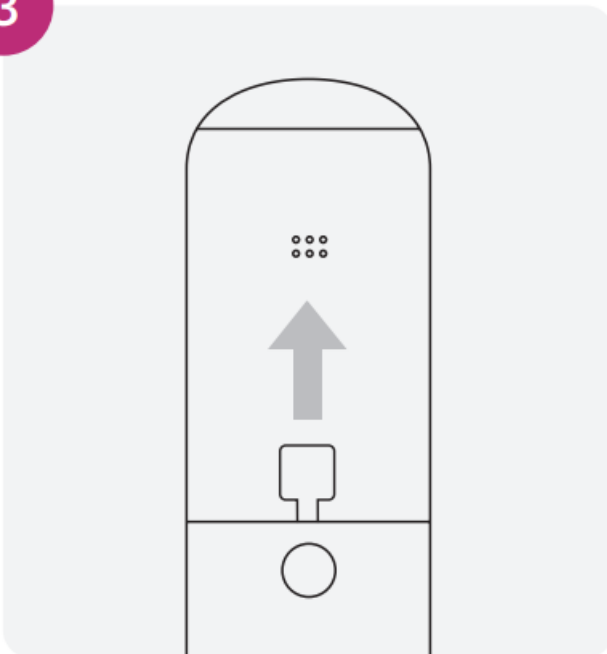

2

3. Remove the tab on the back of the voice remote to connect the batteries.

NOTE: Make sure the line of sight between the remote and Box isn't blocked during setup.

3

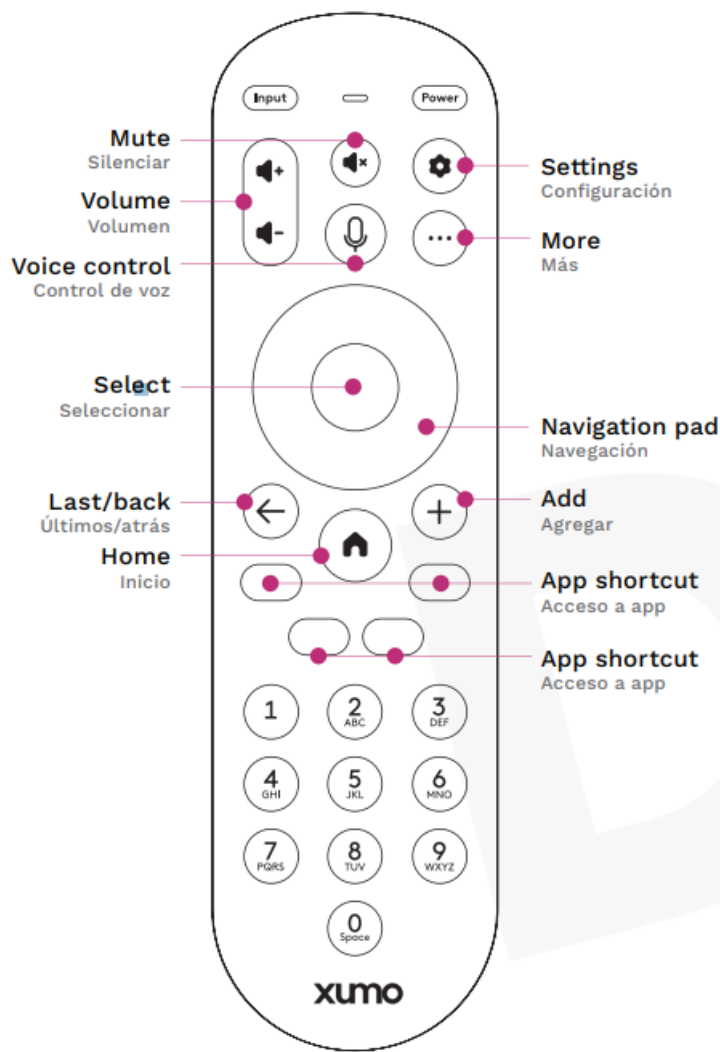

4. Follow the onscreen instructions to pair your remote and activate your Xumo Stream Box.

NOTE: If the Xumo Stream Box becomes unresponsive, you may need to reset it by unplugging the power supply and then plugging it back in.

4

**Meet your advanced voice remote**

## Limited 1-Year Warranty

**Limited 1-Year Warranty** – for full details, visit [xumo.com/warranty](https://xumo.com/warranty). Some exceptions apply. Incidental and consequential damages excluded. This warranty gives you specific legal rights. You may have other legal rights, which vary from state to state.
