Safety Guidelines

General tips:

- Use only original and certified cables.
- Avoid exposing the device to water during storage, transportation, and operation.
- Keep the device away from heat sources and ensure adequate ventilation.
- Do not use any corrosive cleaner/oil to clean the device.
- Keep the device out of reach of children.

Installation tips:

- Check the cable connections after installing the device.
- Place the Xunison Hub D50 in an appropriate location for seamless internet connectivity.
- Restart the device in case of any internet connectivity problems.
- Change your Wi-Fi passwords regularly.

Caution:
Do not disassemble the device in case of malfunction or damage. Instead, change the connections and contact technical support for assistance.

Disposal Note

It is important to properly dispose of electronic waste to prevent harm to the environment and human health. This

product should be taken to a designated collection point for recycling of waste electrical and electronic equipment. You can contact your household waste disposal service or the seller of the product for more information on where to drop off your waste equipment for recycling. This means that the device is only permitted to operate on Wireless Access Systems, such as radio local area networks, within the frequency band of 5150-5350 MHz for indoor use only, and only within the countries of the European Union listed: BE/BG/CZ/DK/DE/EE/IE/EL/ES/FR/HR/IT/CY/LV/LT/LU/HU/MT/NL/AT/PL/PT/RO/SI/SK/FI/SE/TR/ NO/CH/IS/LI/UK(NI). The device is not permitted to operate outdoors within this frequency band or in other countries outside of the EU without the appropriate regulatory approvals.

Declaration of Conformity

Hereby, Xunison Ltd. declares that the radio equipment type D50 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: **xunison.com/support**

Compliance
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
