XUNISON D50 Wi-Fi Mesh Hub

Product Introduction

The Xunison Hub D50 is a powerful Mesh Wi-Fi system that uses Wi-Fi 6 technology to provide high-speed internet up to 5400 Mbps. It supports numerous devices and maintains high data rates and signal quality even with multiple devices connected, providing a stable and uninterrupted internet connection.

Wi-Fi 6
This device supports Wi-Fi 6 and is compatible with various Wi-Fi standards, including older ones, for reliable connections with a range of devices.

Mesh
Mesh technology boosts Wi-Fi coverage, eliminates dead zones, and ensures reliable connection. It also offers easy setup with rapid one-button pairing.
Parental control
This feature helps parents monitor and control their child's internet activity includes web content filtering, time limits, and social supervision, promoting online safety and responsible habits.

Product Installation

Ensure the cables are connected.

1. Power Cable.
2. Press the power button to turn on the device.

Product Configuration

1. **Step 1**: Connect your mobile device to the Xunison Hub D50 network by entering the Wi-Fi details printed on the device sticker
2. **Step 2**:To install the Xunison app, you can either scan the QR code on the welcome card
3. **Step 3**: Alternatively, you can also download the Xunison app from Google Play store or App store.

After installing the app, log in with your registered account to access the features of the Xunison Hub D50.

Safety Guidelines

General tips:
Use only original and certified cables. Avoid exposing the device to water during storage, transportation, and operation. Keep the device away from heat sources and ensure adequate ventilation. Do not use any corrosive cleaner/oil to clean the device. Keep the device out of reach of children.

Installation tips:
Check the cable connections after installing the device. Place the Xunison Hub D50 in an appropriate location for seamless internet connectivity. Restart the device in case of any internet connectivity problems. Change your Wi-Fi passwords regularly.

Caution:
Do not disassemble the device in case of malfunction or damage. Instead, change the connections and contact technical support for assistance.

RF Parameters

Function	Frequency Range	Transmit Power (EIRP)
2.4 GHz Wi-Fi	2412 ~ 2472 MHz	Max 20dBm
5 GHz Wi-Fi	5150 ~ 5850 MHz	Max 23dBm
