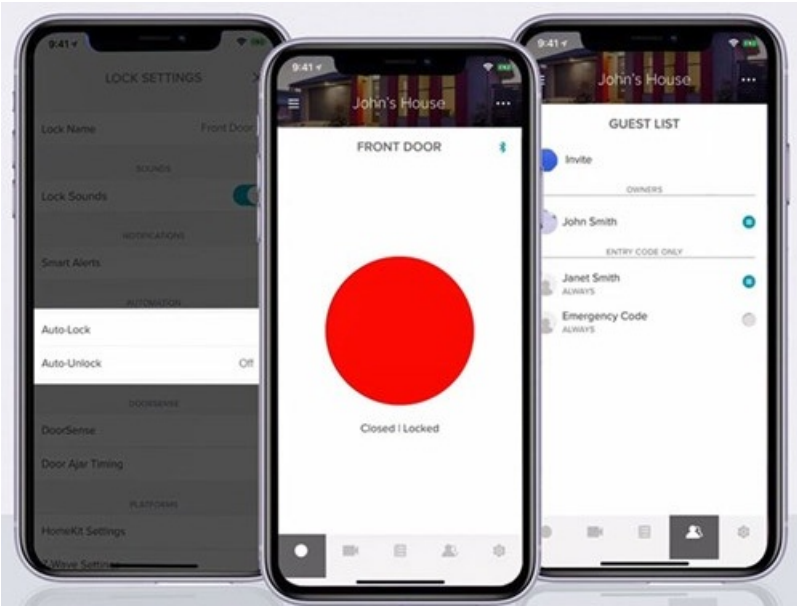
Yale Access App



INSTRUCTION

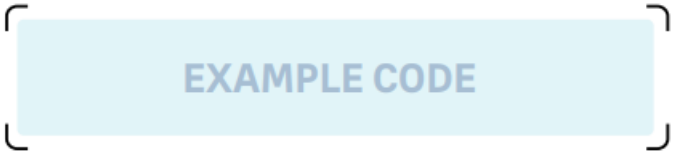
- **Download the Yale Access App**
  - **Tip**: Have an August account?

  - Log in using your existing username and password.

Yale access | Download on the App Store | GET IT ON Google Play

- **Tap ‘Set Up A Device’**

  - Scan the Yale Access QR code located inside the lock’s battery compartment, or found below



- **Install the Lock**
  - Using the app is a requirement for this step. The app will guide you through step-by-step installation instructions

- **If You Have a Smart Module**
  - Insert the module into the slot above the batteries and follow the installation steps in the app.

Tip:

- Once your lock is installed, insert batteries as the last step
- If you have a Bluetooth lock with no Smart Module you can always add one!
