Product Using Instruction

Step 1:

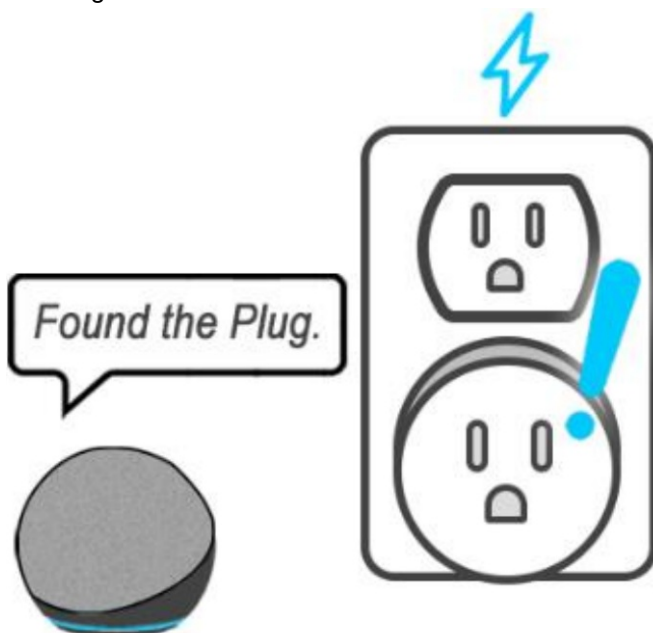

Press and hold the button for 5 seconds until the LED light flashes blue to enter pairing mode.

**Step 2:**

Say to Alexa Echo: "Alexa, discover device."

**Step 3:**

In above a minute, Alexa Echo will discover the Smart Plug. Echo will give you a voice notification, saying : "Found the Plug".

**Step 4:**

You can control on/off, group control, scheduling, timers, renaming, and more via voice commands or the "Amazon Alexa" app.

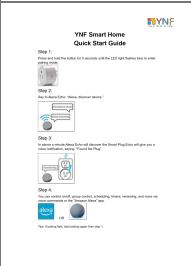

OR

Tips: If pairing fails, start pairing again from step 1.
