YoloCam S7 AI Powered 4K Streaming Made Simple

Specifications

- **Model:** YoloCam S7
- **Resolution:** 1080p
- **Connection:** Type-C USB
- **Compatibility:** Windows and Mac OS

What’s in the box

- YoloCam S7 (Camera Body) ×1
- Lens Cap ×1
- Power Adapter ×1
- USB-C to USB Type-C Power Cable ×1
- USB-A to USB Type-C Data Cable ×1

Product information

Technical Details

Brand Name	YOLOLIV
Item Weight	15.5 ounces

Product Dimensions	1.4 x 2.88 x 5.22 inches
Item model number	YoloCam S7

Ultra-Fast, Razor-Sharp

Achieve instant clarity with lightning-fast Phase Detection Auto Focus (PDAF). Say goodbye to blurs and hello to focused videos every time.

EASE OF USE

Plug & Play, Less Effort, More Quality. No need for video capture cards. A single Type-C cable easily connects to your device, unlocking a seamless ultra ultra-live streaming experience across all platforms.

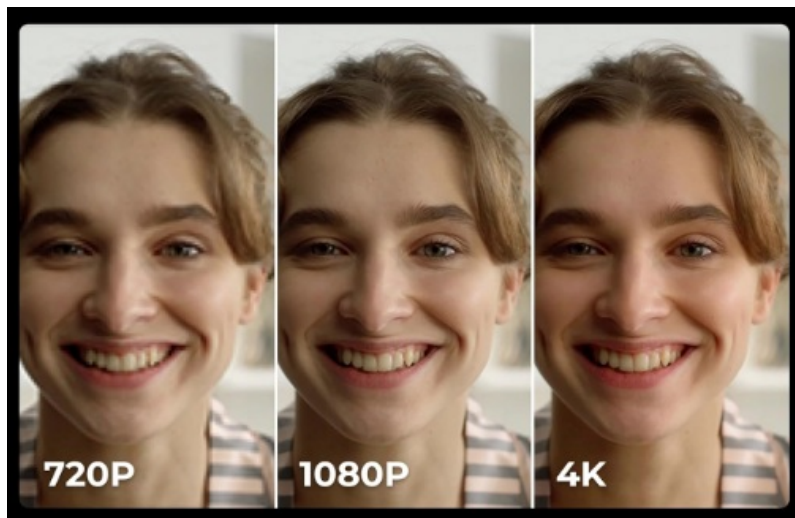

4/3" IMX SENSOR

A Noticeable Leap in Quality 4K60 | 4/3" IMX Sensor | 2.9 um | Quad Pixel Incredible image quality, delivering a stunning visual experience.

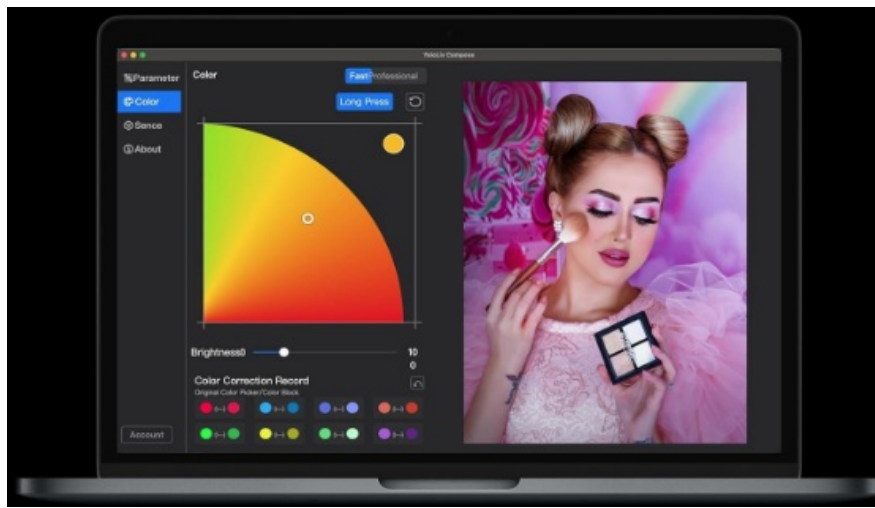

4K RESOLUTION

Capture Brilliance, Stream in Perfection Experience every detail in ultra-sharp 4K resolution.

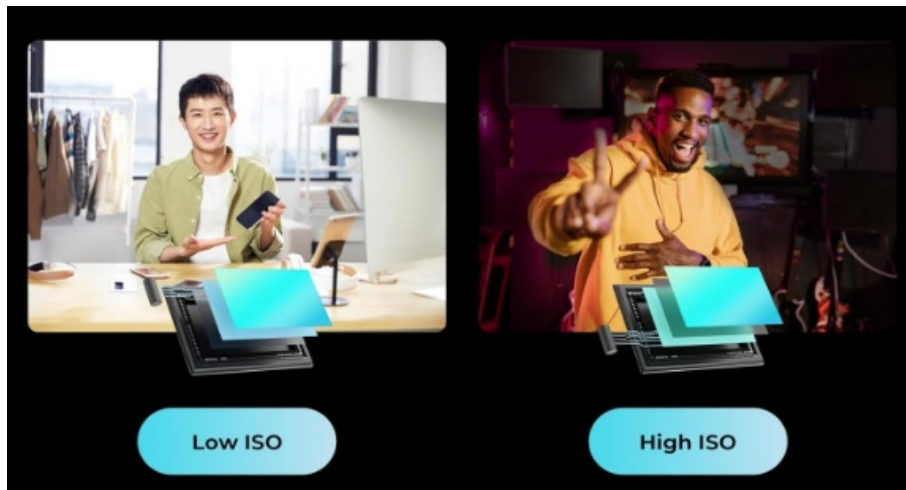

A1 COMPOSER

Stream Smart, Shine Bright. Ensure your products are visually stunning with real-time color correction. Say goodbye to technical worries! YoloLiv A1 model automatically adjusts camera settings, making it easy for beginners to create professional-quality streams.

DUAL NATIVE ISO

Superior Low Light Performance Capture stunning, clear images in any lighting condition. Minimizes noise while preserving dynamic range, ensuring vibrant, sharp video—whether in dimly lit rooms or high-contrast environments.

Interchangeable Lens

Seamlessly switch lenses to suit any scene. Whether you're capturing wide landscapes or close-up details, the right lens is always at your fingertips.

Product Usage Instructions

Camera Connection to Computer

- **Step 1:** Power on the S7 using the original power cable.
- **Step 2:** Connect the Type-C end of the original data cable to the S7 and the USB-A end to the computer.
- **Step 3:** If your computer lacks a USB-A port, use an adapter. Note: No video output if no lens is installed.

Add S7 Video Feed to Computer

Using OBS as an Example

- **Step 1:** Ensure a successful S7 connection to the computer.
- **Step 2:** Open OBS, navigate to Video Capture Device, and select the device named YX-CAM followed by a serial number.
- **Step 3:** Add the device for video feed integration.

FAQs

How do I connect the S7 to a computer?

Follow these steps: Power on S7 with the original power cable, connect the Type-C end of the data cable to S7 and USB-A end to the computer. Use an adapter if needed.

How do I add the S7 video feed to my computer?

In OBS, ensure S7 is connected, then select YX-CAM device from Video Capture Device to add video feed.

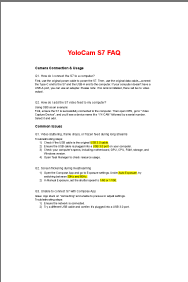

What to do in case of video stuttering or frozen feed during streams?

Troubleshooting steps include checking USB cable type, ensuring USB 3.0 port connection, verifying computer specs, and monitoring resource usage in Task Manager.

How to address screen flickering during livestreaming?

Adjust Exposure settings in Compose App and switch between 50Hz and 60Hz under Auto Exposure. Set shutter speed to 1/60 or 1/100 in Manual Exposure.
