YSI ProQuatro Multi Parameter Meter

Specifications

- **Model:** ProQuatro
- **Manufacturer:** YSI
- **Compatible with:** Pro Plus cables and sensors
- **Waterproof Rating:** IP67
- **Connectivity:** Micro USB port
- **Maximum Sensors:** 4

FAQs

- **Q: Can I use Pro Plus sensors with the ProQuatro?**
  - **A:** Yes, the ProQuatro is compatible with all Pro Plus cables and sensors, making it easy to transition to the new device without needing additional accessories.
- **Q: How many sensors can I connect to the ProQuatro?**
  - **A:** The ProQuatro allows you to connect up to four sensors to a single cable, providing comprehensive multiparameter sampling capabilities.
- **Q: Is the ProQuatro suitable for use in extreme conditions?**
  - **A:** Yes, the ProQuatro is designed for durability with an IP67 waterproof rating and military spec connectors, ensuring reliable performance even in harsh environments.

PRODUCT INFORMATION

- Pro Plus set the industry standard for years, but now it's time to say farewell and move toward the future. We are excited to announce the release of ProQuatro, YSI's latest handheld in the Professional Series line of products.
- We've taken everything you love about Pro Plus and added a new micro USB port for improved data

management. ProQuatro was designed to work with the multiparameter Quatro cable as well as the other cables and sensors in the Pro Series family.

- Replacing the Pro Plus is no small feat, but we believe that ProQuatro is up to the task with enough power, capability, and flexibility for water quality sampling you can rely on. Let us show you why ProQuatro is a worthy successor to the iconic Pro Plus!
- Compatible with all Pro Plus cables and sensors, ProQuatro is the new industry standard for low-cost water quality sampling.

Product Usage Instructions

- **Data Management**
  - The ProQuatro features a new micro USB port for improved data management. You can easily transfer data to a flash drive for convenient access in the field or the lab.
- **Sensor Connection**
  - Connect up to four sensors to a single cable for comprehensive multiparameter sampling. Ensure sensors are securely attached before use.
- **Waterproof Operation**
  - With an IP67 waterproof rating, the ProQuatro is suitable for use in harsh environments. However, avoid submerging the device beyond its rated depth.
- **Power On/Off**
  - To power on the device, press and hold the power button until the screen lights up. To power off, repeat the same step and confirm shutdown when prompted.
- **Customization**
  - The ProQuatro can be easily customized to meet your specific water quality sampling needs. Refer to the user manual for instructions on customization options.
- **Better tailored to meet our customers' needs.**
  - ProQuatro is designed to be tough, smart, and versatile. All Pro Series instruments, including the ProQuatro, are designed for durability. With IP67 waterproof ratings and military spec connectors, these handhelds work in even the harshest environments.
  - The addition of a USB port makes the ProQuatro one of the smartest instruments in the Pro Series. Gone are the days of the comm saddle; now users can simply upload their data directly to a flash drive for easy access in the field or the lab.
  - The ProQuatro is the most versatile handheld in the Pro Series. Connect up to four sensors to a single cable for comprehensive multiparameter sampling. ProQuatro is easily customized to be the ideal choice for low-cost water quality sampling.
- **Pro Plus vs. ProQuatro**
