Take Android (Samsung) and Windows (Surface) as priority operation systems, and IOS (iPad) as complementary operation systems.

Note: This table icon is for reference only, please refer to the actual product.

Steps of pairing the keyboard with your IOS device

1. On the keyboard, slide the power button on. The blue status light will still be on.
2. Press the [connect] button, the [Bluetooth] indicator light will be blinking blue.
3. On the iPad, select Setting-General-Bluetooth-On.
4. The iPad will display "Bluetooth 3.0 Keyboard " as an available device.
5. Select "Bluetooth 3.0 Keyboard" on the iPad; the iPad will display a code. 6: Type the code on the keyboard and press enter; the keyboard will now be paired to iPad. (Or pair without a password)

Pairing Steps with your Android device

(take the Samsung tablet for example)

1. Get into the applications page.
2. Find the "SETTING" icon, turn Bluetooth on, and search Bluetooth device.
3. Turn keyboard Bluetooth on. Find the keyboard Bluetooth name on a screen, and click it. (Or pair without a password)
4. Input the pairing code displayed on the screen and press Enter key.

Pairing Steps with your Window system device

(take a Surface tablet for example)

1. Get into the applications page.
2. Find the SETTING icon, turn Bluetooth on, and search Bluetooth device.
3. Click the "change the table setting".
4. Find the keyboard Bluetooth name on a screen, and click it.
5. Input the pairing code displayed on the screen and press Enter key. (Or pair without a password)

Charge the batteries

Turn on the Bluetooth keyboard.
Battery status light green: the battery has an adequate charge.
Battery Status light red: recharge the battery. Go to the following step:

1. Plugs the Micro-USB charging cable into the keyboard.
2. Plug the USB port on a computer or power adapter.
3. Charge for 1 to 3 hours. Or until the Battery status light turns off.

Caution:

1. When not in use for a long time, we suggest closing the keyboard power, to extend battery life.
2. In order to obtain a longer battery life, the keyboard power lights flash to recharge the keyboard.

Energy-saving sleep mode

Keyboard's long-life battery lasts for several weeks of normal use. The keyboard will go into sleep mode if left on and not being used; press any key and wait a second or two to bring it out of sleep mode.

Safety Caution

1. Keep the item away from sharp objects.
2. Do not place heavy objects on the keyboard.
3. Away from microwave items.
4. Do not force or distorted the keyboard.

5. Keep away from oil, chemical, or other organic liquid, items.

Troubleshooting

1. Make sure the keyboard is on (the power indicator is shining).
2. Make sure the keyboard is within operating distance (within 10 meters).
3. Ensure the battery storage has power.
4. Make sure the Bluetooth in the tablet pc is on.
5. Press the key "connect", and check the Bluetooth status.
6. Ensure the wireless keyboard has already matched with Bluetooth.

Disposal of Waste batteries

Insert a screwdriver between the plastic top and metal case at the keyboard top or bottom Pry up the plastic top and remove it completely. This action destroys the keyboard and separates the battery from a circuit board, it is your responsibility to hand this over to an applicable collection and recycling will help to conserve natural resources and prevent potential negative consequences for human health and the environment due to the possible presence of hazardous in batteries and electrical and electronic equipment.

Table of Toxic and Hazardous Substance/ Elements and Their Content

According to China (Electronic information products pollution control measures)

Ingredients	(Pb)	(Hg)	(Cd)	(Cr (VI))	(PBB)	(PBDE)
Cable	X	O	O	O	O	O
PWAs	X	O	O	O	O	O
Plastic parts	O	O	O	O	O	O
Membrane	O	O	O	O	O	O
Meter parts	X	O	O	O	O	O
Rubber dome	O	O	O	O	O	O

Stands for this toxic and hazardous content in homogeneous material is under the SJ/T11363-2006 Standards limits X=stands for this toxic and hazardous content in homogeneous material is
beyond the SJ/T11363-2006 Standards limits. Under the ingredients with "X" in the form, all are up to ROHS "on 27 January 2003 the European Parliament and the council announce electronic equipment in limiting the use of certain hazardous substances directive 2002/95/EC"
Note: the environmental protection using period reference standard depends on the product of regular work temperature and humidity conditions

Product Specification

Y030 Bluetooth keyboard

Standard Micro interface
Operating distance up to 10 meters
Modulation system: GFSK
Operation voltage: 3.0V-3.3V
Operating current: <2.5mA
Standby current: <0.3mA
Sleep current: <40uA
Charging current: 200mA
Standby time: <120 days
Charge time: 2~3 hours
Lithium battery capacity: 150mA
United working time: >60 hours

Lithium battery life: 3 years
4.0*20*30mm
Keying force: 60±10g
key life: 3 million strokes
Operating temperature: -10 ~ +55°C
Number of keys: JP028 59 keys, JP030 78 keys, JP033 64 keys

Warranty

We warranty for (1) year from the date you purchased our keyboard from an authorized retailer ("Express Microsoft Period"), We warrant that our product or Accessory will not malfunction due to a defect in materials or workmanship under Normal Use Conditions.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE

Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
