1. Scan the QR code and open it in browser, download and install the APP.

2. Connect with the Bluetooth.

①

②

③

④

3. Transfer recording files from the voice recorder to your mobile phone.

Transferred!

Tap **Waiting for transfer** to transfer the recording files.

Charging

When low power, the device will turn off automatically, please charge the device in time.

LED Color	Blinking mode	Machine Status
🟣	Blinking	Less than 10% power
🟣 🔴	Blinking	While recording, less than 10% power
🟣 ⚫	Always on-light off	Charging-fully charged

Bluetooth

LED Color	Blinking mode	Machine Status
🔵	Blinking	Bluetooth connecting
🔵	Always on	Bluetooth connected
⚫	Light off	Sleep (after three minutes without any operations)

Long press the power button about 8 seconds to reset the Bluetooth, the indicator flashes blue.

Recording

1. **When using the device individually**

Long press the REC button, the indicator flashes red to start a recording. While recording, long press the REC button, the indicator turns from red to blue to pause the recording.
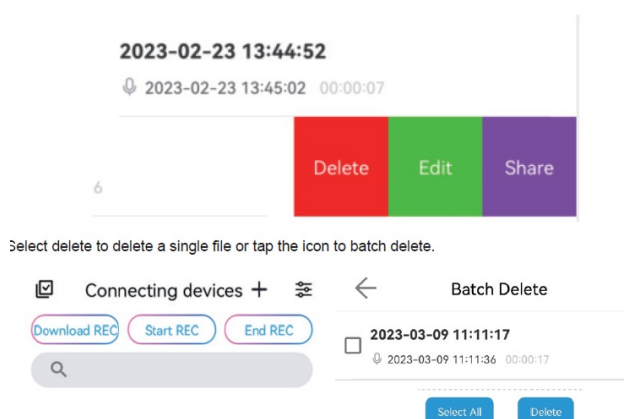

2. **When using the APP**

When connected with the APP, select Start REC to start a recording.
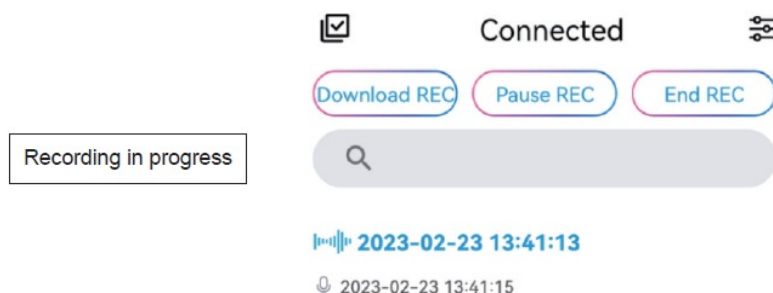

Select End REC and confirm Save to finish and save a recording.

Swipe left on the recording file, select Edit to rename the recording, and select Share to share.

Troubleshooting

1. **Cannot connect with the APP DVR Link.**
   - Make sure you've turned on the device.
   - Reset the Bluetooth.
2. **No response from the voice recorder.**
   - If there is no operations over 3 minutes, the device turns off automatically, so you might mistaken it as no response, simply long press the power button to turn on it.
3. **Cannot turn on the device.**
   The battery may have run out, please charge it and try again.
