ZEBRA ZD411D Desktop Printer User Guide

**ZD411D Desktop Printer
User Guide**

Contents

Setup

IMPORTANT
Go to **zebra.com/setup** and install the driver for your printer.

http://www.zebra.com/setup

The driver MUST be installed before connecting the printer to the computer, or it will cause complications. If your Microsoft Windows-based computer does not have the driver installed for this printer, download it from **zebra.com/setup** and install it before continuing.
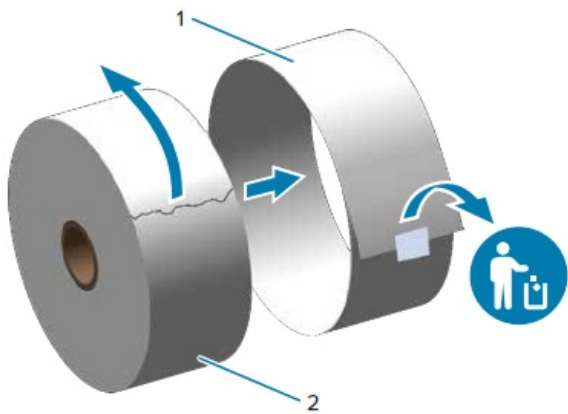

Remove Packing

Slide the release latches (1) to the front to unlock the cover.

Open the printer and remove the packing (1).

Load Media

|	
Unroll and discard the outer layer (1) of the media roll (2).	Spread the roll holders (2) open and place the roll (1) into the printer.
Verify the roll spins easily on the holder.	Pull the end of the roll past the front edge of the printer.

Press the media under the guides (1).

Adjust Sensor

| Align the sensor (1) to the center of the roll for regular labels and receipts. | Align the sensor (2) to marks (1) away from the center of the roll for marked labels. |

Close Printer

Press down on the front edge of the printer until it locks.

Connect Power

A. Plug the power supply into the printer.	C. Plug the power cord into an appropriate receptacle.
B. Plug the power cable into the power supply.	D. The power supply lights green.

Connect USB

A. Remove the port blocker label.
B. Connect the USB cable to the printer and your computer.

Power On

Press the power button (1).	When the the printer is ready, the printer status light (1) will turn green.

Smart Calibration

Press and hold the Pause (1) and Cancel (2) buttons for two seconds to line up the labels.
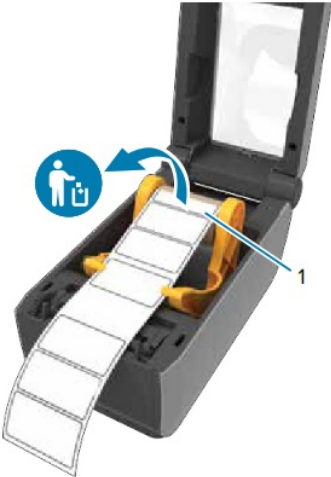

Print Configuration Report

Press and hold the Feed (1) and Cancel (2) buttons for two seconds to print a configuration report.
