FAQ

- **Q1:** The keyboard and mouse can not be connected.

- **A1:** Please switch on the keyboard, and press (Esc) + (+/=) the LED indicator light will flash quickly.
  Plug the 2.4GHz USB receiver into the computer. Within 10 seconds, put the keyboard at 10 cm near the receiver for pairing. When the light turns off, the keyboard pairing is successful.
- **Q2:** What should I do if the keyboard gets delayed or stuck?
- **A2:** Please check there is no 2.4GHz device (e.g. router) nearby to interfere with the connection.
  Please check there is no full metal case that may block the signal.
- **Q3:** Where is my USB receiver?
- **A3:** The USB receiver is placed on top of the keyboard inside the package, please look for it carefully.
  Please contact us to get a free replacement if you have lost the USB receiver.

FCC STATEMENT

NOTE

The multimedia keys are for Win 8 and Win 10, for other systems, there may be no function for some combined keys.
This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used under the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment andthe receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirements in portable exposure conditions without restriction.
