pairing instructions

If you require any assistance, you can speak to our customer service team directly via phone on 1300 552 255 (AU) or 0800 003 329 (NZ), or via email at customercare@mercator.com.au. You can also visit ikuu.com.au to access troubleshooting guides and advice on how to get the most from your Mercator Ikuu products, such as guides on scenes and automation.

Set Up the App

1. Download the Mercator Ikuu app.
2. Tap 'create new account' or 'log in to account'.
3. Follow the in-app prompts and tap 'OK'.

Connect to the App

To connect your downlight to the app, you must first enter pairing mode. All Mercator Ikuu Wi-Fi products require a 2.4GHz Wi-Fi network.

Activate Pairing Mode:

Turn the downlight on and off at the power switch 5 times in quick succession. The downlight will start to blink rapidly (approx. 8 times every 5 seconds).

Pairing Your Downlight:

1. Open the Mercator Ikuū app. Make sure your-product is still in pairing mode.
2. Tap + > Add Device > Auto Scan. The discovery process will now begin.
3. When your product is discovered, tap 'next'.
4. Confirm your Wi-Fi details and tap 'confirm'. This will begin the pairing process, which will add your product to the app.
5. Once pairing is complete, you can edit the name of your product (optional).
6. To finish the pairing process, tap 'done'.

Note: If the pairing process doesn't work, and you are certain that the password for your 2.4GHz Wi-Fi network is correct, try pairing in AP mode. Refer to our website for details.

Voice Assistant Setup (Optional)
