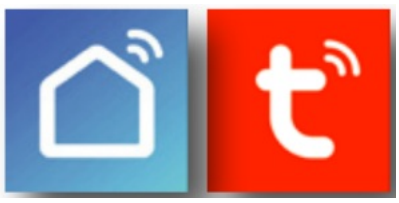
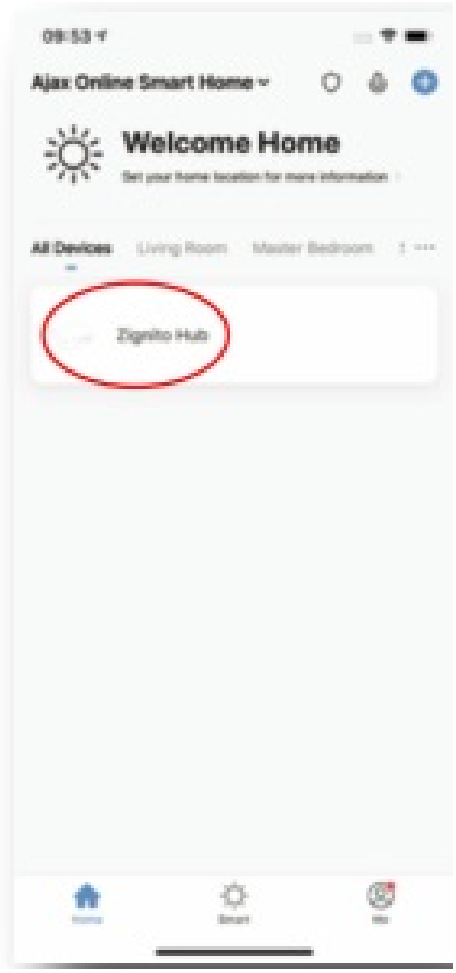
GU10 Smart Zignito Bulb for Pairing with Smart Life/Tuya App User Guide

Smart Zignito Bulb
Quick Setup for Pairing with
Smart Life/Tuya App

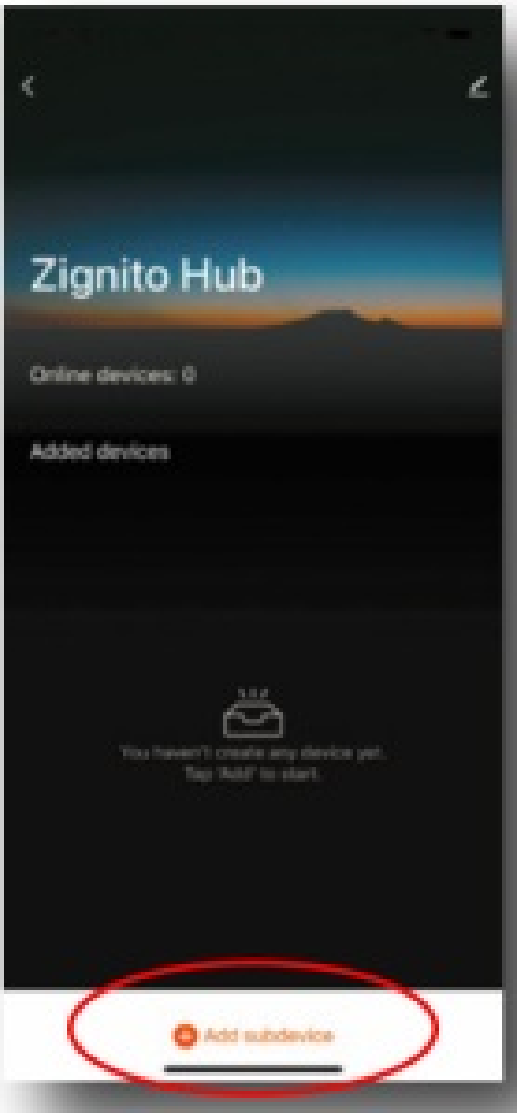
1. a) Download and register an account on the Smart Life or Tuya App then open & then pair your Zignito Hub. Once paired select “Zignito Hub”1
   b) Please also check that the bulbs are flashing slowly, if not turn the bulbs ON/OFF 5 times to reset them and make them flash slowly(factory reset)



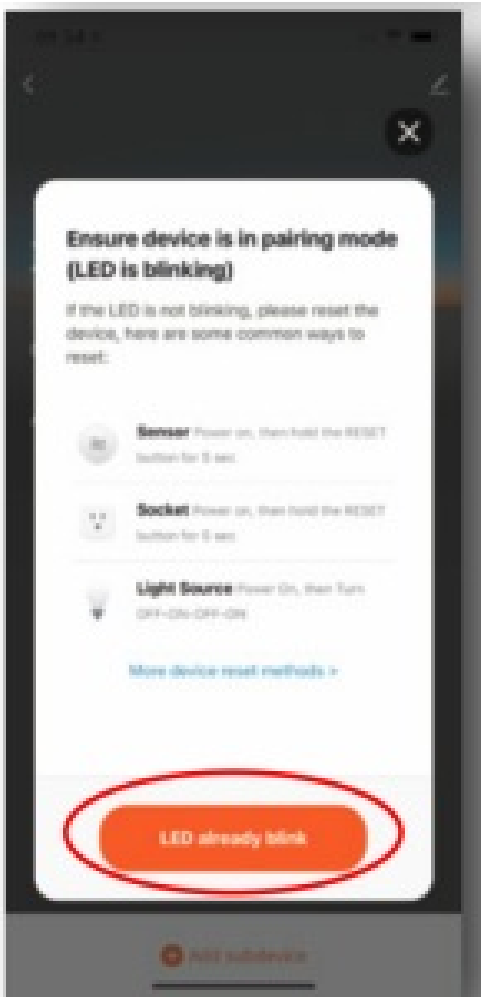
2.



Now select “Add subdevice”.

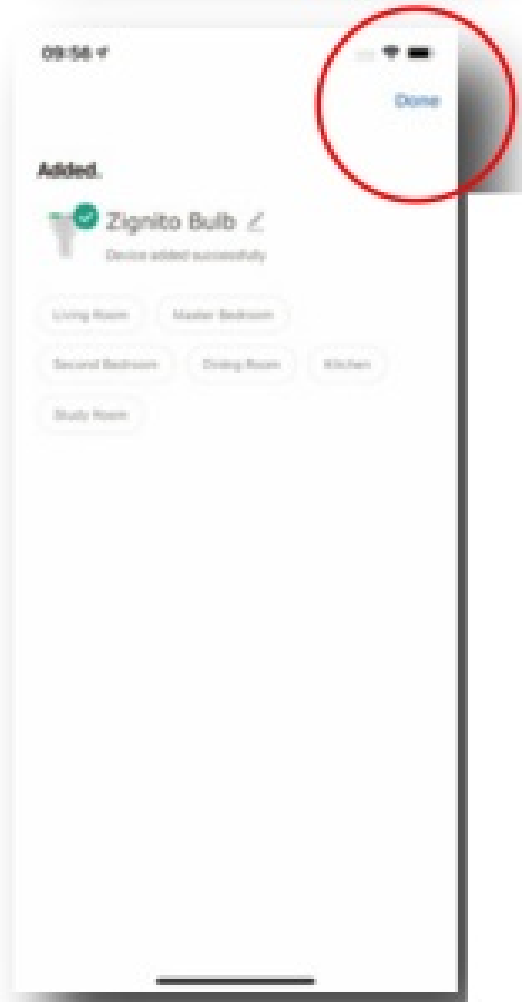


3. Now select “LED already blink”.



4. Your Zignito Hub will now search for your bulb. Once found select “Done”.

5. Finally select “Done” again to complete pairing”.

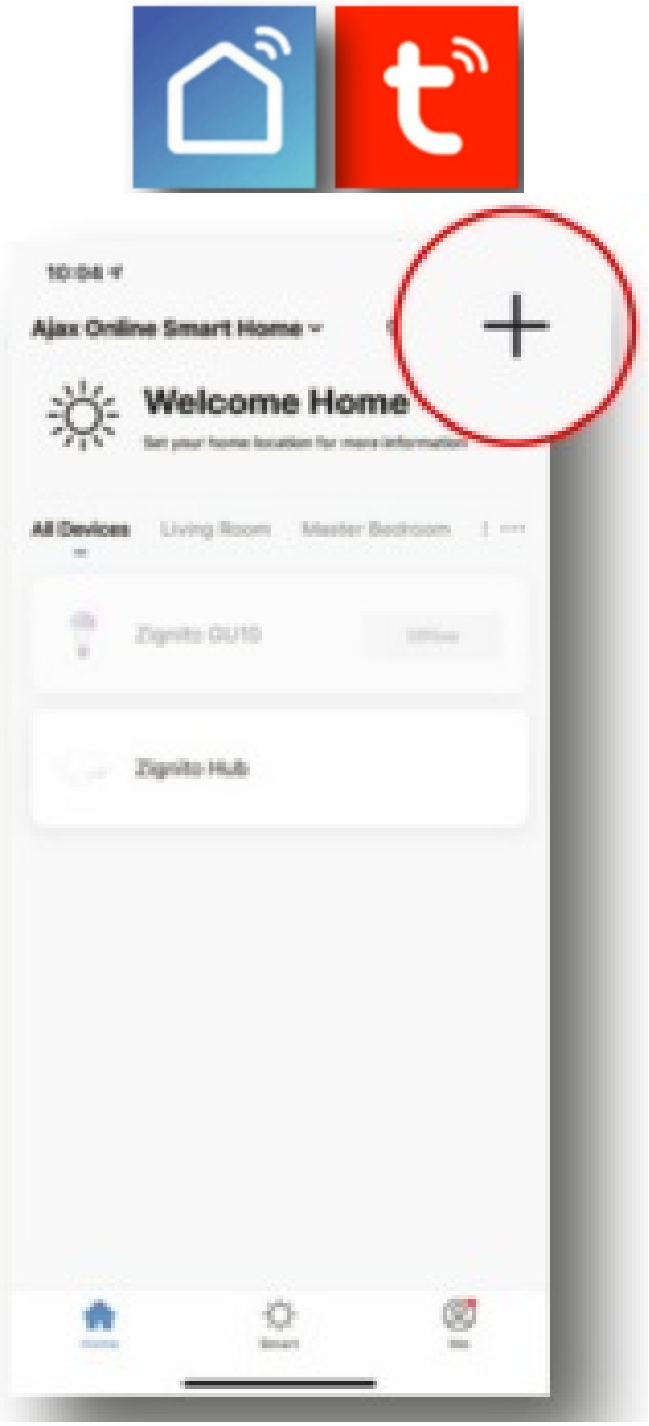


6. When paired, you will be able to change the settings of your bulb to suit your preference.

Smart Zignito Bulb
Manual Setup for Pairing with
Smart Life/Tuya App

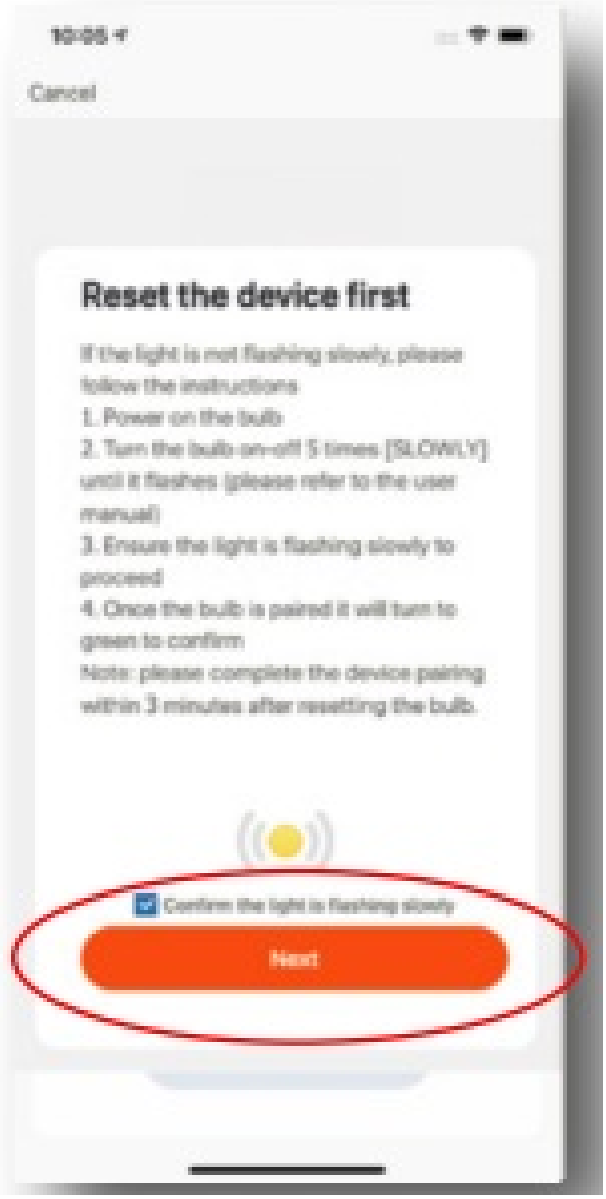
1. a) Download and register an account on the Smart Life or Tuya App then open & then pair your Zignito Hub. Once paired select “+”.1

   b) Please also check that the bulbs are flashing slowly, if not turn the bulbs ON/OFF 5 times to reset them and make them flash slowly(factory reset)

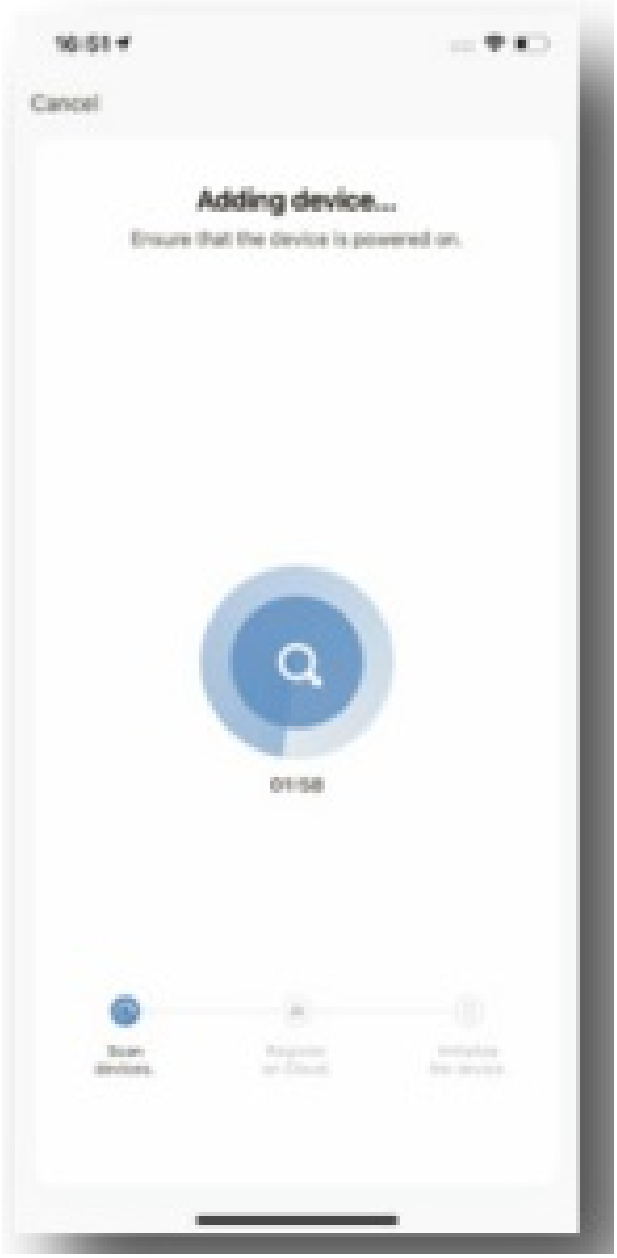


2. Select “Lighting Source (Zigbee)” under “Lighting”.

3. Select “Confirm the light is flashing slowly” & then select “Next”.



4. Your Zignito Hub will now search for your bulb.



5. Once your Zignito Hub finds your Zignito GU10 Bulb, the light on bulb will turn green.

6. When paired, you will be able to change the settings of your bulb to suit your preference.
