Humanoid tracking settings

Humanoid tracking proper settings:

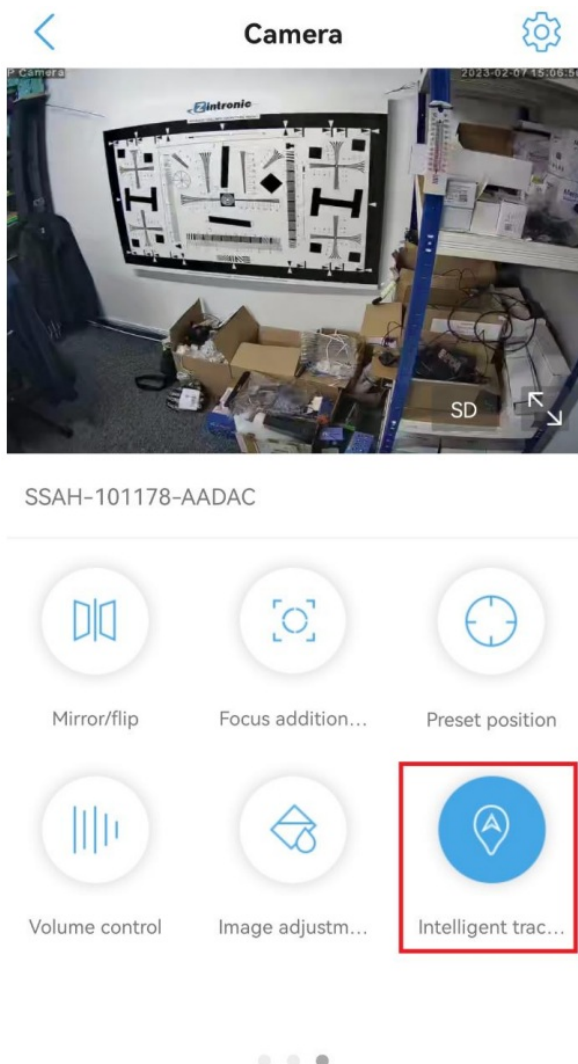

1. Open Cam Hi Pro application and get live preview, then catch the white part of the screen and move to the left side like on the screen below:

2. It will show another options, catch again the white part of the screen and move to the left side like on the screen below:

3. It will show another options, find and press an option called "Intelligent tracking":

4. Humanoid tracking is set properly
