**How to share camera using
CamHiPro application
This manual refers to Zintronic 'A' & 'P' series.**
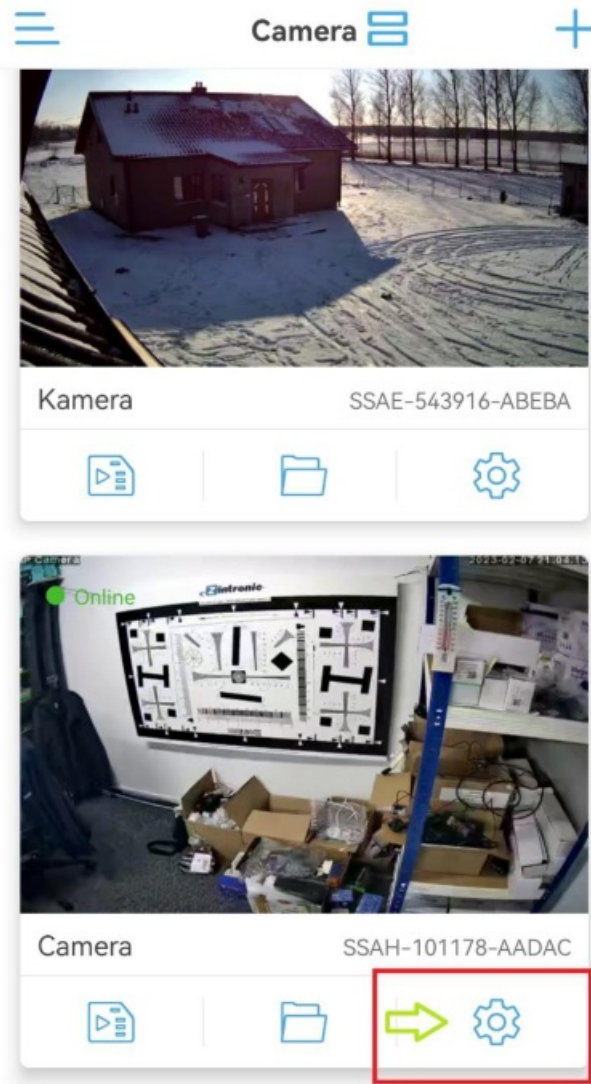

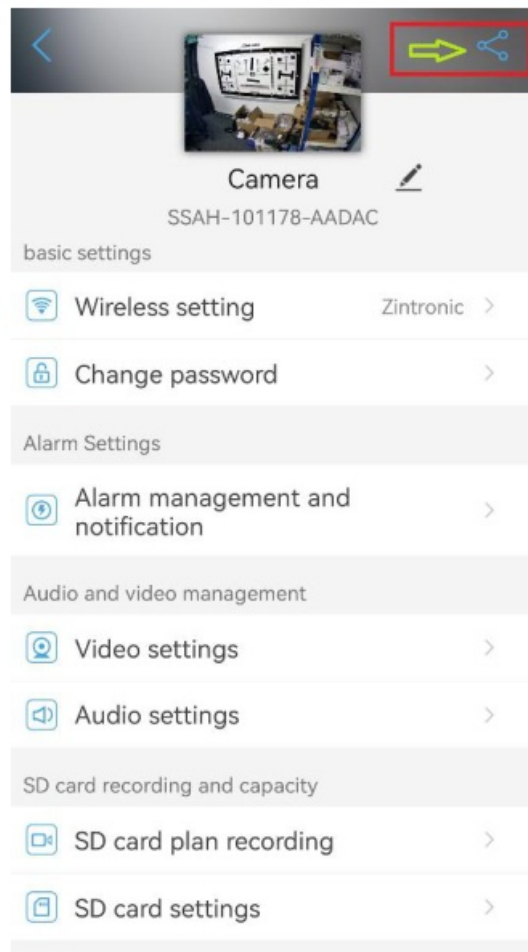

Contents

Sharing camera using CamHiPro application

How to share camera to the other user:

1. Open CamHiPro application and click "Settings" icon like on the screen below:

Kamera   SSAE-543916-ABEBA

Camera   SSAH-101178-AADAC

2. Click „Share" icon in the top right corner:

3. It will show QR code ready to scan by new user:
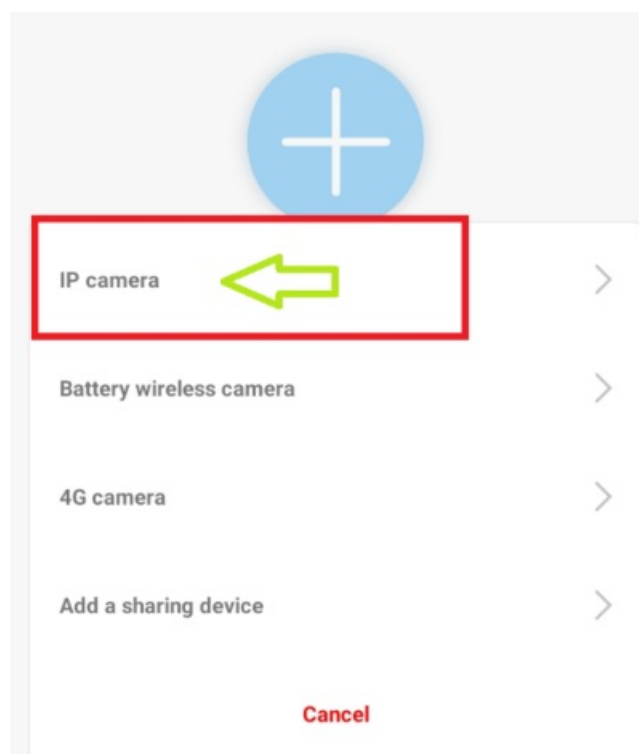

Save to album

Share it
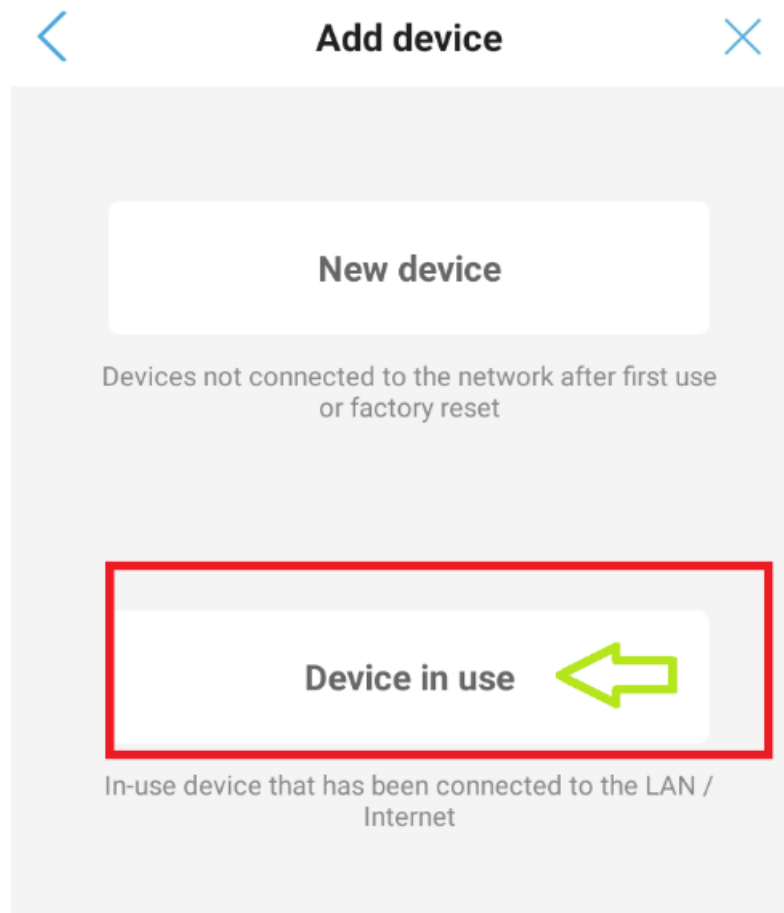

Adding camera by new user

1. Open CamHiPro application by new user and click „+" button in the top right corner or "Click Add device" in the middle of the screen (when we have not added any other camera yet):
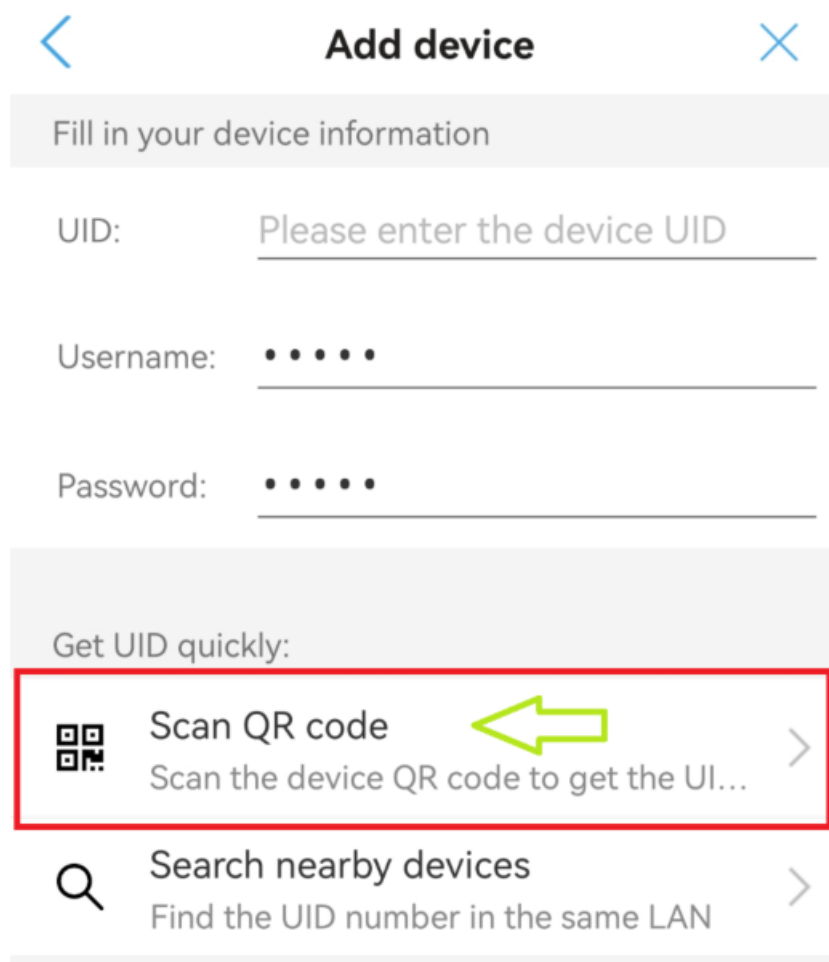

Click Add device
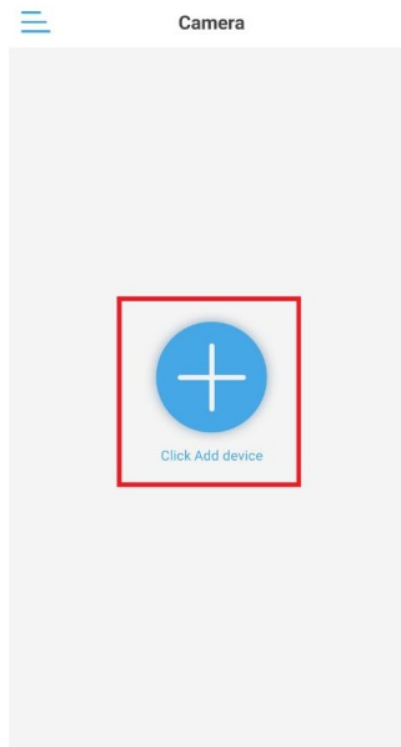

2. Choose an option „IP Camera":

IP camera

Battery wireless camera

4G camera
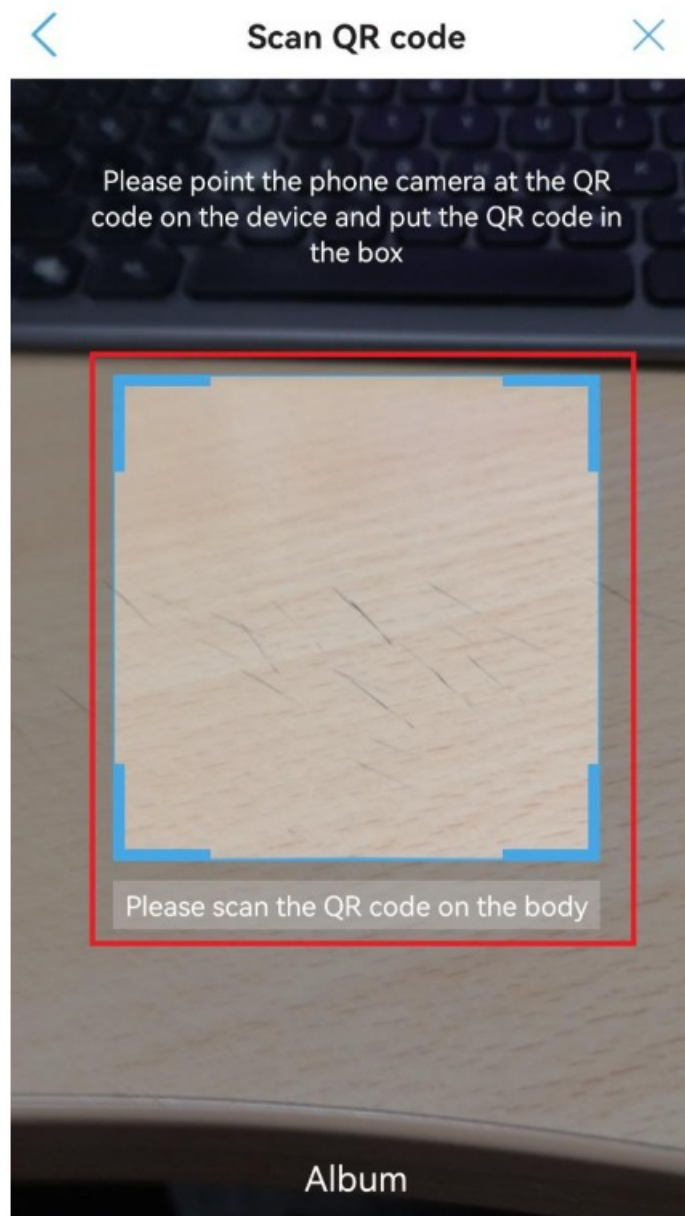

Add a sharing device

Cancel

3. In the next step choose "Device in use":

4. Select an option "Scan QR code":

5. Scan QR code from user who shares camera using CamHiPro application:

Scan QR code

Please point the phone camera at the QR code on the device and put the QR code in the box

Please scan the QR code on the body

Album

6. Camera shared to the new user successfully
