ZIZO SPK-AMPFY Amplify Portable LED Bluetooth TWS Speaker

PACKAGE CONTENTS

The Box

- 1 x Amplify Speaker
- 1 x USB Charging Cable
- 1 x 3.5mm Audio Cable
- 1 x Quick Start Guide
- 1 x Warranty Card

GETTING STARTED

the speaker is fully charged before using for the first time.

Charging

Plug the charging cable into the speaker's charging port with the included cable. The device will automatically begin charging once the adapter is connected to the unit. The unit will also power on when connected to a power source even if the battery power is low. When the battery is full, the charging indicator light on the front panel will turn off.

The device takes approximately 5 hours to fully charge. With standard usage, a fully charged battery can play for

about 2 hours.

Power ON / OFF

1. To turn on speakers, press the power button on.
2. To turn off, press the power button off.

Bluetooth® Pairing

1. When using the Bluetooth, please tap settings, then open "Bluetooth".
2. Scan from your phone, tablet, notebook for AMPLIFY, and pair the device to the speaker, turn on your music in the device, then you can listen audio files through the speaker.
3. Unpair from speaker when finished listening.

USING YOUR DEVICE

TWS

Turn on Bluetooth® mode, then press and hold the TWS button to enter TWS function. Once confirmed, link two ZIZO Ampify speakers together with the same bluetooth device. Press and hold the TWS button again to cancel TWS function.

Function

1. Choose "Mode" to switch to FM radio.
2. Choose "PLAY/PAUSE" for automatic searching and saving.
3. Choose "PREV" and "NEXT" to switch channels.

Microphone

1. Plug in your microphone into the microphone jack on unit main control panel.
2. Use the "ECHO" knob to control microphone echo.

AUX

1. Press the audio input on unit on main panel on the top.
2. Insert the Aux cable plug into the Aux input, then connect with your device.
3. Pull out the cable when finished listening.

ADDITIONAL FEATURES

FCC Warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .
