ZKTeco IN710 Fingerprint Reader Device

Product Information

Product Name	IN710
Version	1.2
Dimensions (mm)	167.00 (W) x 135.00 (H) x 23.50 (D)
Features	Microphone, Card Reading Area, Indicator, 5-inch HD Touchscreen, Fingerprint Sensor, Speaker, Reset Button
Interface Description	Network Interface, Type-C, 12V Power In, Access Control

Product Usage Instructions

Finger Placement

Recommended fingers: Index, middle, or ring fingers. Avoid using the thumb or pinky finger, as they are difficult to press accurately on the fingerprint reader.

Installation Environment

Please refer to the following recommendations for installation:

- Device Installation: The IN710 requires no difficult installation, just fix the device on a flat table.

Power Connection

AC Adapter: DC 12V, 3A

Recommended AC Adapter:

1. Rating of 12V and 3A.
2. To share the device's power with other devices, use a power supply with higher current ratings.

Ethernet Connection

After the device is powered on, connect the network connector via the Ethernet cable.

Type-C Connection

Connect the device and computer via a Type-C cable.

Door Sensor, Exit Button and Lock Relay Connection

Door Sensor and Exit Button:

The system supports Normally Opened Lock and Normally Closed Lock. The NO LOCK (normally unlocked when power-ON) is connected to 'NO' and 'COM' terminals, and the NC LOCK (normally locked when power-ON) is connected to 'NC' and 'COM' terminals. For an example, refer to the below-mentioned NC Lock:

1. Device not sharing power with the lock: +5V, +5V, GND
2. Device sharing power with the lock: +5V, +5V, GND

New User Registration

When there is no super administrator set in the device, click on icon > [User Mgt.] > [New User] to register a new user. The options include entering the user ID and Name, setting User Role and Verification Mode, registering ID Card, Fingerprint and Password.

Ethernet

Click on icon > [COMM.] > [Ethernet] to set the network parameters. If the TCP/IP communication of the device is successful, the icon will be displayed in the upper right corner of the standby interface.

Access Control

Click on icon > [Access Control] to enter the access control interface and set relevant parameters of access control.

System

Click on icon > [System] to enter the system interface to set the related system parameters for optimizing the accessibility of the device.

Attendance Record

Click on icon > [Attendance Search] > [Attendance Record] to enter the personal record search, input the user ID and select the time range. Then the corresponding attendance record will be displayed.
