Key Updates

| Implemented Change	Description
System	• System Setting • Security Setting

System Setting

A new function allows users to retrieve forgotten passwords via an email link.

2.1 Basic Setting

Introduced email retrieval frequency control, limiting users to one retrieval request every 2 minutes.

Users can also configure external URL domains for link redirection.

Security Setting

Added settings to define the validity period for password reset links and configure password policies for Employee Self-Service (ESS) accounts.
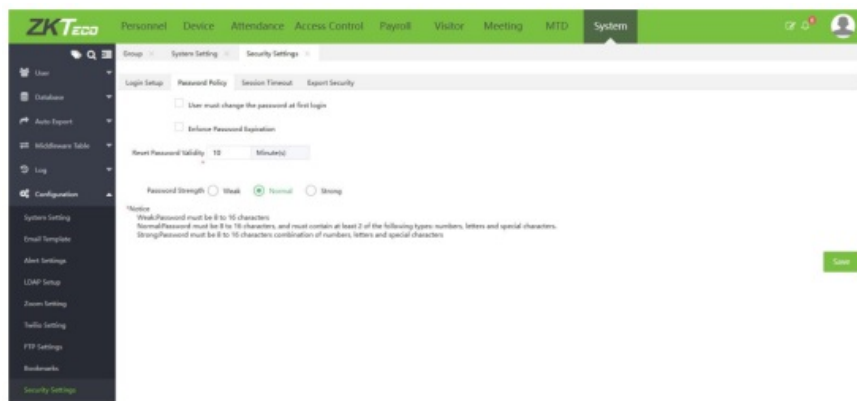

3.1 Retrieve Password

Added a validity period setting for the password reset link, with a default duration of 10

minutes.

3.2 Employee Self-service Login Password

Apply password policies that are consistent with the user's account settings.
