1. Dimensions

VT07-B01

2. Installation Environment

3. Device Installation

Mode 1: Install on the wall

1. Find a suitable indoor installation location, the recommended installation height is 59.1 inches (1.5m), which can be adjusted as needed.
2. Attach the mounting template stickers to the wall and drill holes, then fix the back plate on the wall with the wall mounting screws.
3. Finally, push the device into the back plate and secure it to the back plate.

Mode 2: Install on the desktop

1. Take out the device and the bracket from the box.
2. Put the white bracket rubber sleeve on the bottom of the bracket.
3. Finally, insert the bracket into the mounting slot behind the device.

4. Connection Diagram

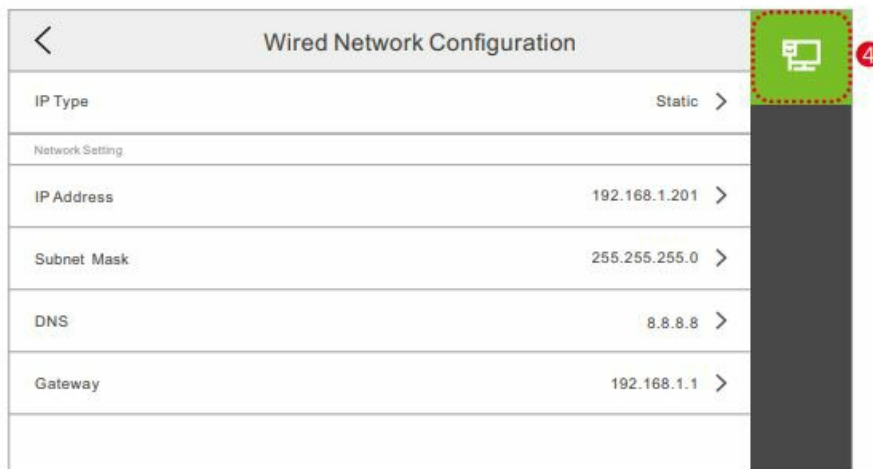

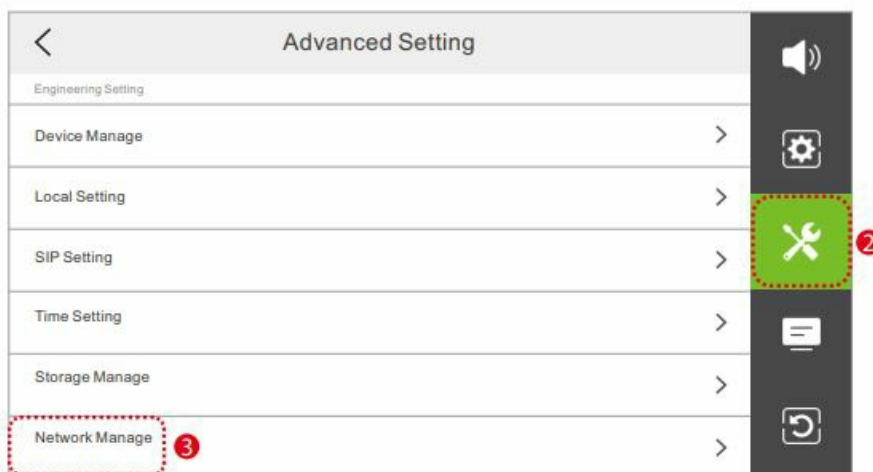

Note:

1. VT07-B01, VTO and IP Camera are connected through out the network cable.
2. In LAN, the IP addresses of all devices must be in the same network segment.

5. Ethernet Settings

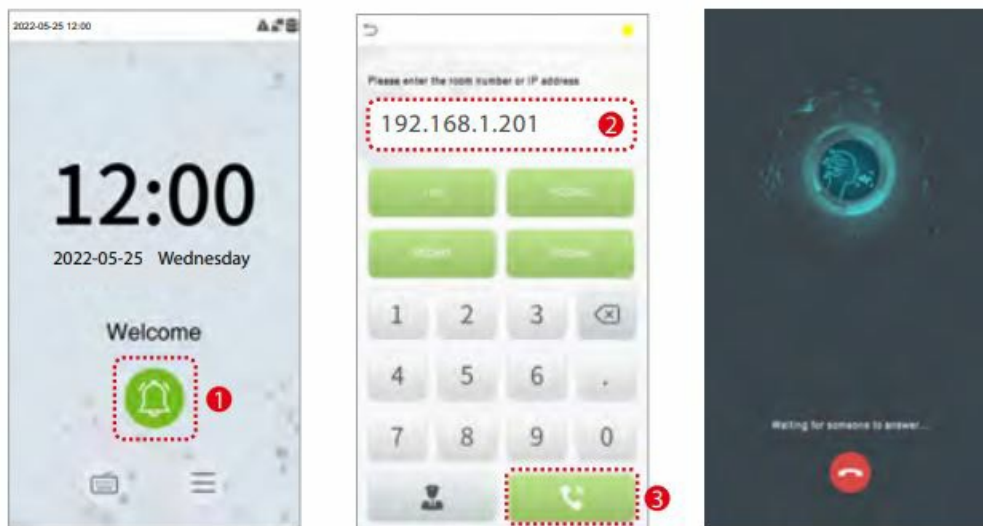

Click Setting > Advanced Setting > Network Manage to enter the Wired Network Configuration Setting interface to set the network parameters.

6. Video Door Phone Connection

On the Video Intercom

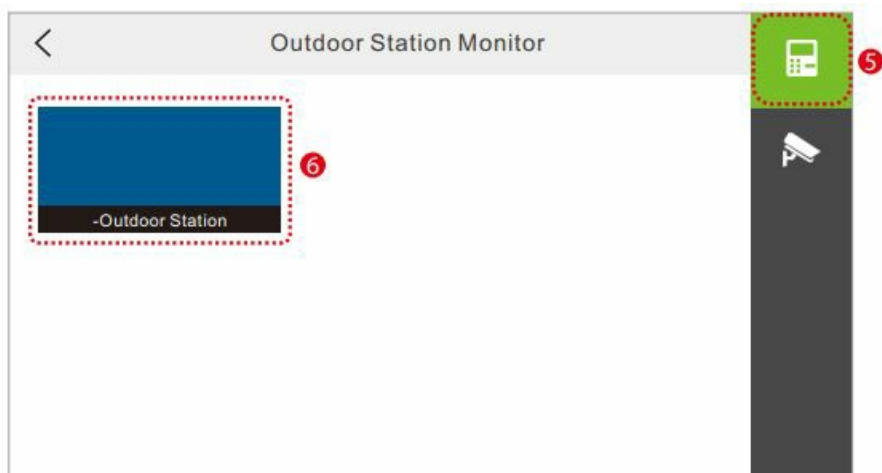

Once the indoor station is configured with the network, the video intercom function can be activated by tapping the icon on the Video Intercom screen. Enter the IP address of the indoor station in the jumping interface.
