ZOOM Handy Control and Sync

Specifications

- Product Name: ZOOM Handy Control & Sync for iOS/iPadOS
- Version: 1.0
- Manufacturer: ZOOM CORPORATION
- Compatibility: iOS/iPadOS devices

Product Usage Instructions

Installing ZOOM Handy Control & Sync:

1. Open the App Store on the iPhone/iPad and search for ZOOM Handy Control & Sync.
2. Tap GET on the ZOOM Handy Control & Sync screen to install the application.

Connecting with Recorders

1. Refer to the recorder manual to prepare it for Bluetooth connection.
2. Open the ZOOM Handy Control & Sync app on your iPhone/iPad.
3. In the app, tap the Bluetooth device list icon and select the recorder name/ID to connect.

Using Screens
The screens display various information such as elapsed time, recorder name, battery charge, signal strength, and more. You can also see level meters and file names.

Recording:

1. To start recording on all connected recorders simultaneously, tap the REC button.

2. To stop recording, tap the STOP button.

Changing Recorder Names:

1. Swipe left on the recorder display area.
2. Tap the edit icon.
3. Input the desired name and tap OK.

Disconnecting:

1. Swipe left on the display area of the recorder you want to disconnect.
2. Tap disconnect.

Setting the Date and Time:

1. Press the date and time setting button to synchronize all connected recorders with the iPhone/iPad's date and time.

Introduction

- ZOOM Handy Control & Sync is a remote control application for ZOOM recorder products. An iPhone/iPad can be connected to multiple recorders and used to simultaneously start and stop recording, synchronize timecode, and set the date and time.
- **Note** that this manual does not explainthe operation of the recorders themselves. See the product operation manuals for detailed explanations about them.
