Installing Your Device

1. Open the micro-SIM card slot cover.

2. Install a micro-SIM card to the micro-SIM card slot.

   WARNING!

   Your device does not support SIM cards, nano-SIM cards or any other non-standard micro-SIM cards. To avoid damage to the device, do not use those cards or any card holders.

3. Close the micro-SIM card slot cover.

Connecting to Your Device

Using Wi-Fi

1. Power on your device.
2. Ensure that your computer or other client devices have enabled Wi-Fi, and search for available wireless networks.
3. Select the Wi-Fi name (SSID) of your device, and click Connect.

4. Enter the Wi-Fi password if necessary, and click OK.

5. Wait until the client device is connected to your device successfully

Logging in to the 4G Mobile Hotspot Configuration Page

1. Ensure that the connection between your device and the client device is correct.

2. Launch the Internet browser and enter **http://192.168.0.1** or **http://ufi.ztedevice.com** in the address bar.

3. Enter the password to log in to the 4G Mobile Hotspot configuration page.

    NOTE:

    You can view the label on the device to get the default password.
