### Smart Bird Feeder

<https://www.vicohome.io/download/>

Download Vicohome App from App Store or Google Play. You can also download the App by scanning the QR code above with the QR code scanner in your smartphone

### Pair the Camera to your Phone App

Note: Before installing your bird feeder and camera, please setup your camera first. Set up the camera

Step1: Go to your App Store or Google Play on your smartphone, search for "Vicohome" Or just scan the QR code below to download the app:

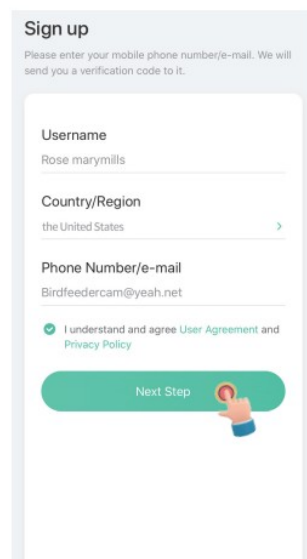

<https://www.vicohome.io/download/>

Then please sign up for a new account, please check the screenshot below for your reference:

1. Tap "Sign up for a new account"

2. Input your user name, your country “the United State” , and your E-mail address. And then check on the “Agreement and Privacy policy Let’s goto “NextStep” .

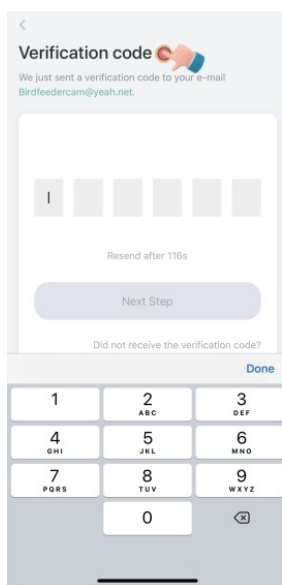

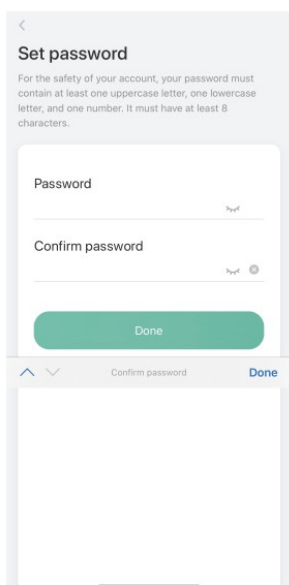

3. You will receive the Verification Code from your E-mail, put it in and then goto “NextStep” .

4. Set password for your account, and then go to “Done” .

5. Congratulations You have already registered successfully.

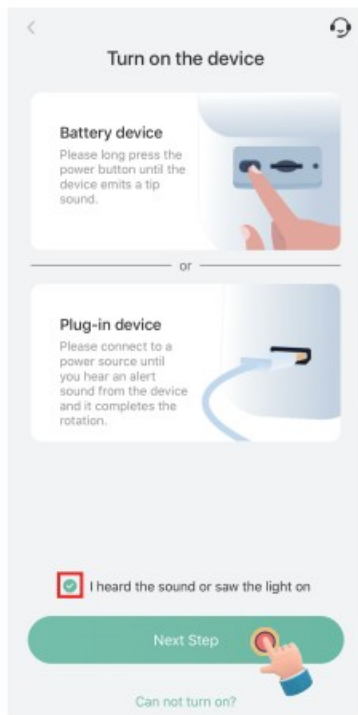

Let’s tap the “+” icon to add the camera now!

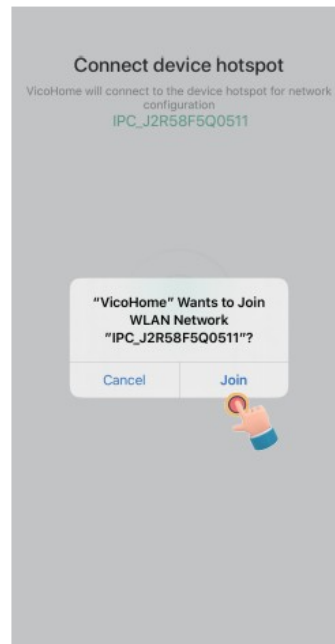

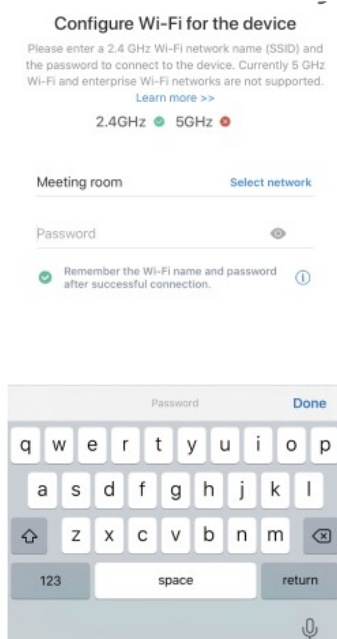

## Step 2:

Hold the power button to power up the camera, the indicator light will keep blue. And finally you will hear the pairing sound from the camera, which means that the camera is ready for connection.

1. If you hear the sound from the camera, please goto “Next Step” .
2. The device is found, please tap the device at this page.

3. Connect WIFI to the camera, select your network and input your WIFI password.
4. Tap "Join", please.

5. Wait for a second, you will see this page and the camera would say "WIFI connected". You're almost done.
6. Set a name for the device and goto "Next Step".

Connection succeeded

- ✓ Connect the device to the network
- ✓ New device is found
- ✓ Register it to the cloud service
- ✓ Initialize the device

Set a name and location for the device

Device Name

Camera for bird feeder

+

Next Step

7. Check your WIFI signal strength, tap “Done” .
8. Here we go tap the “play” icon, you will see the camera image.

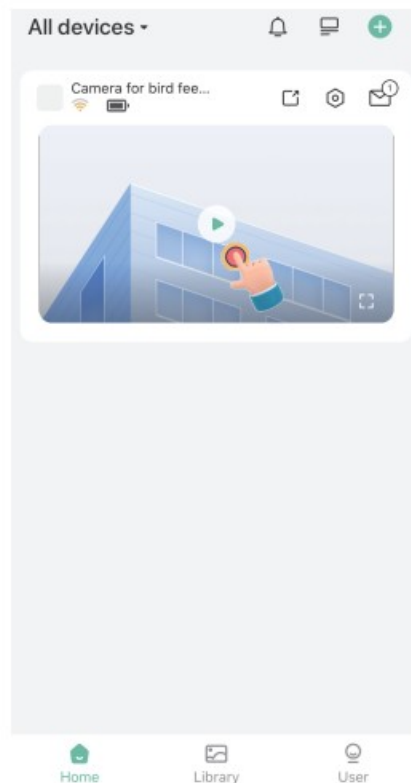

Please place the device where you need to install it and check the strength of the Wi-Fi signal.

Confirm your Wi-Fi signal strength: **Medium**

It's recommended to mount the device in the current location.

Done

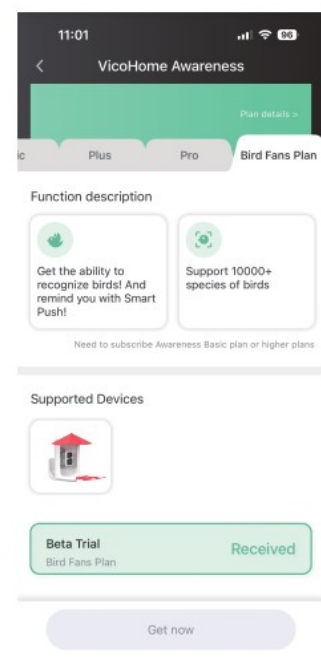

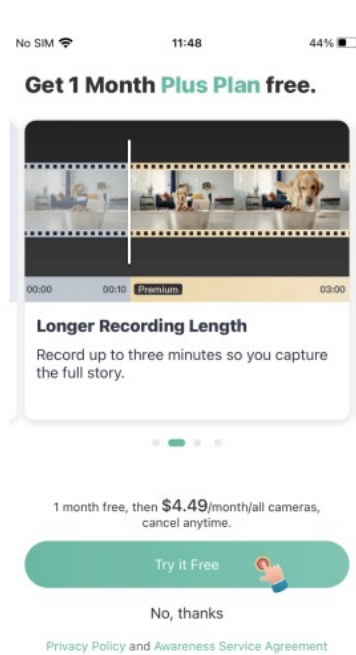

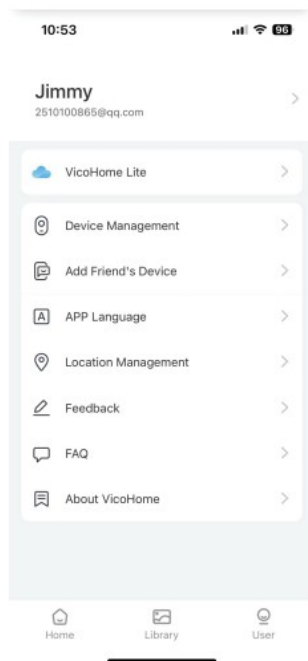

## About Cloud Storage and Bird Fans Plan

### How to get 30 days of free cloud storage

For new register we have 30 days free cloud storage

1. Please go to Vicohome app, then tap try it free.
2. Please go to “Bird Fans Plan” get it free.
3. After one month this service needs to be subscribed.

### Step1:

The invitee needs to download the Vicohome APP on her/his smartphone.

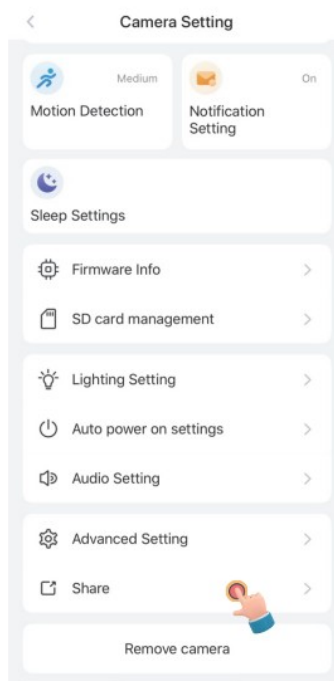

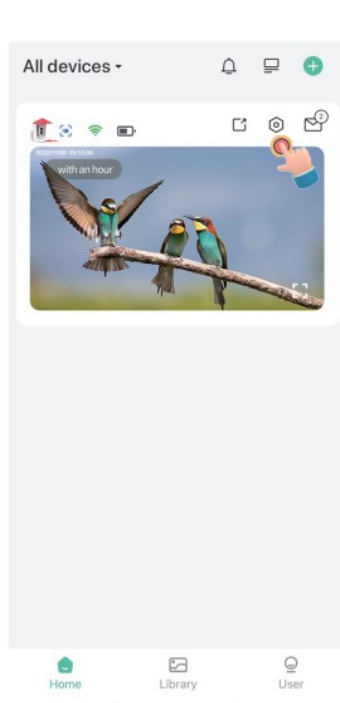

### Step2:

After installing and registering a new account to login, just go to the app homepage, tap on the "+" sign in the upper right corner, and then select "Add friend's device". Then please scan the QR code of device admin.

How to find the device admin QR code?

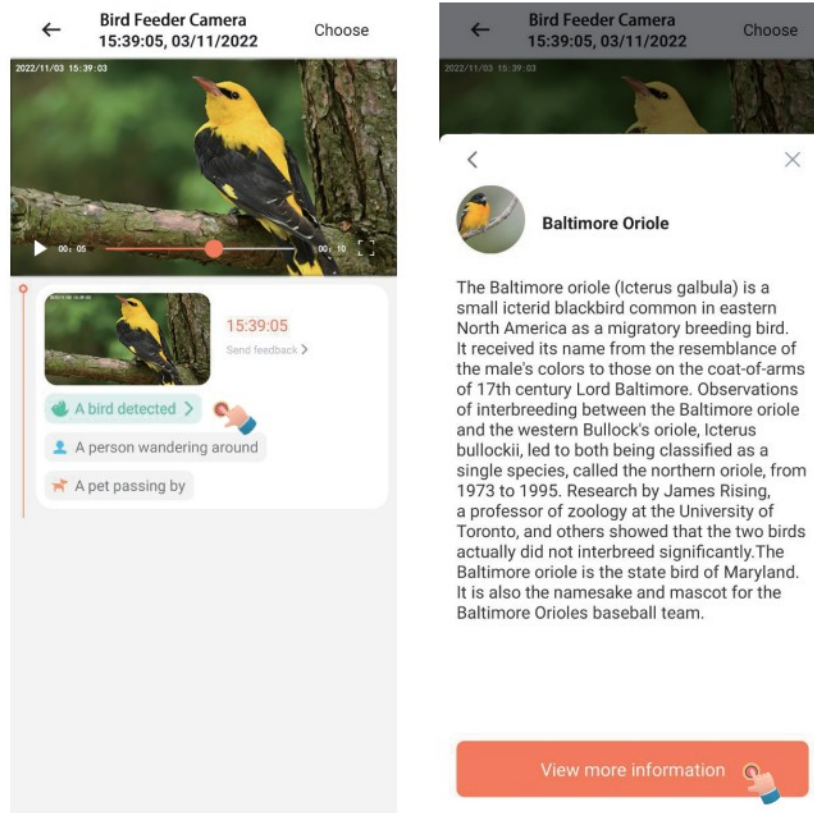

See the screenshot below. Just go to the administrator's

Vicohome app. Go to the settings icon > Share > Device Sharing then you will see the QR code. (QR code valid within half an hour)

## AI Identification

Abird came to the bird feeder and triggered the camera recording and AI Identification.

## Frequently Asked Questions

Q1: Why doesn't the Wi-Fi name appear when connect to Wi-Fi?

Q2: Will the camera show red lights when night vision is activated?

A2: The built-in infrared lamp beads make the camera only show some dim red lights when night vision is activated, but the image quality is still clear under no light environment.

Q3: What are the requirements for Wi-Fi?

A3: Please use a 2.4GHz wireless network. The device does not support the 5GHz wireless network. Meanwhile, please set the Wi-Fi authentication method to WPA2-PSK or other lower level of the security method. A password is required.

Q4: How far should the camera be placed from the router?

A4: After testing, the WiFi connection distance can normally reach up to 100 meters in the open area. However, the actual situation depends on the strength of Wi-Fi and its surrounding environment.

Q5: What is the maximum length of recording time?

Q6: What should | do when the device is malfunctioning?

A6: Long press the power button to restart the camera.
