- [5 Related Posts](#)

Step 1 Hardware Installation

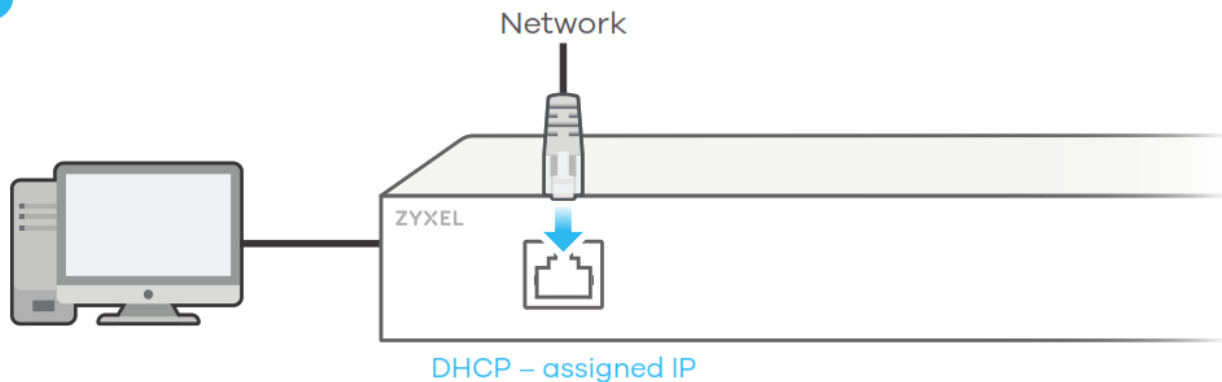

Note: Qualified service personnel must confirm the building's protective earthing terminal is a valid term. To help protect against lightning and interference functions, secure a green/yellow ground cable to the Switch.

Step 2 Configuration Options

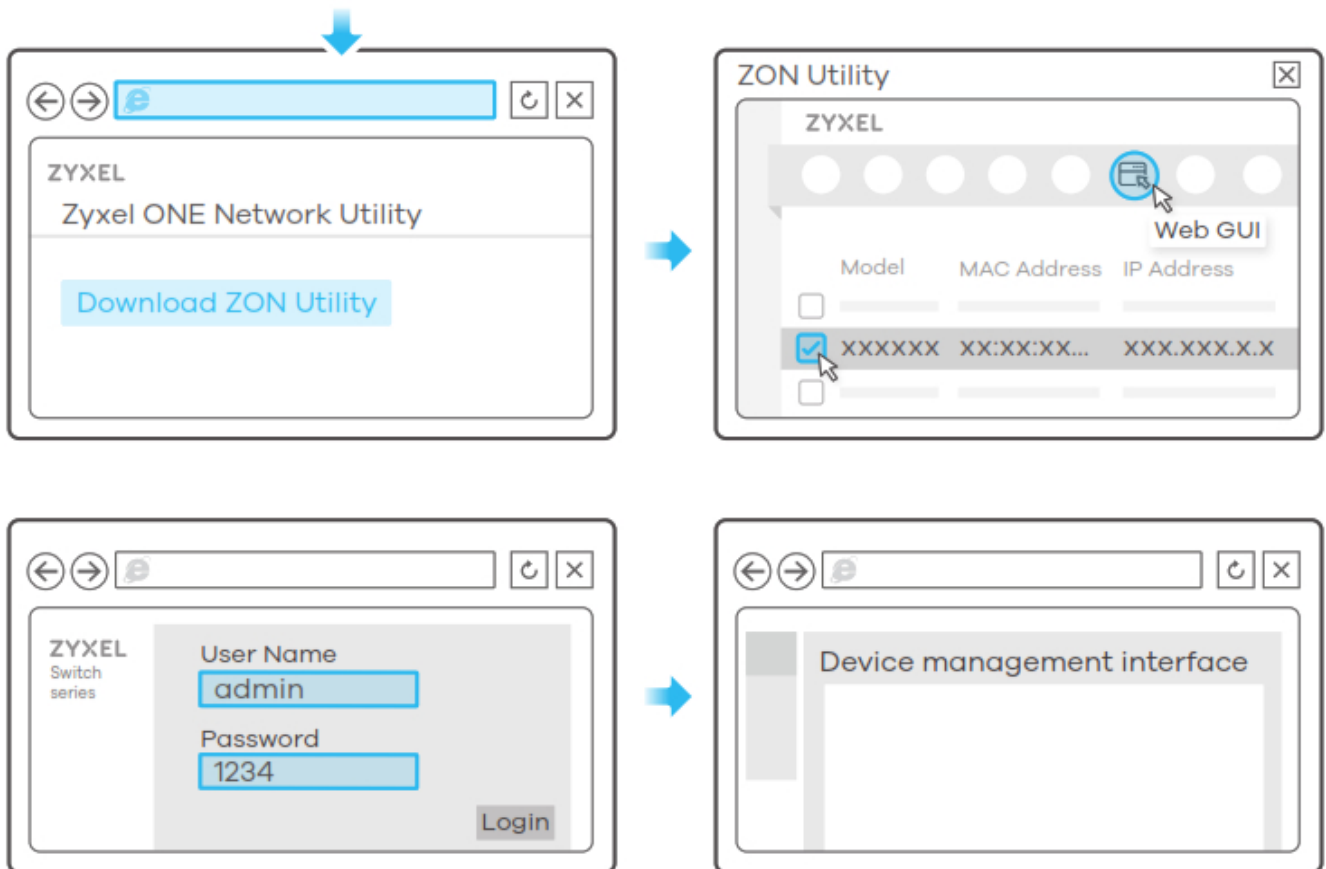

Option A: Configure with ZON Utility for DHCP Environment (Smart and Managed Switch only)

1

https://www.zyxel.com/form/zon_utility_download.shtml

2

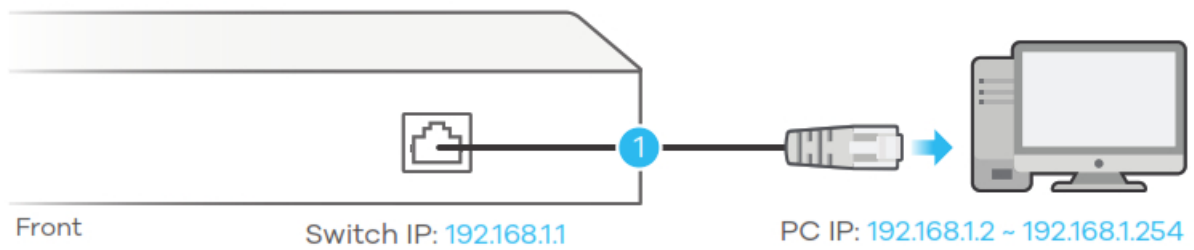

Option A: Configure with ZON Utility for DHCP Environment

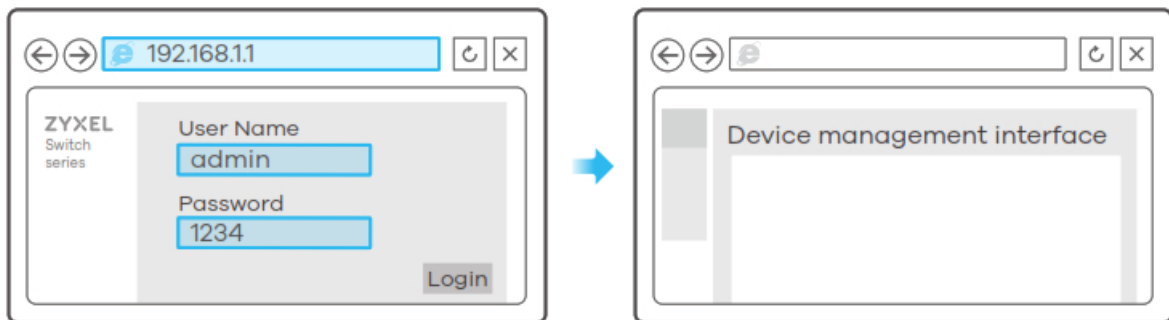

1. Connect the Switch and your computer to the same network that has a DHCP server.
2. Use the ZON utility to discover the Switch. Select the Switch and click the Web GUI icon to access its web configurator

Option B: Configure with Switch Default Static IP

- 1.

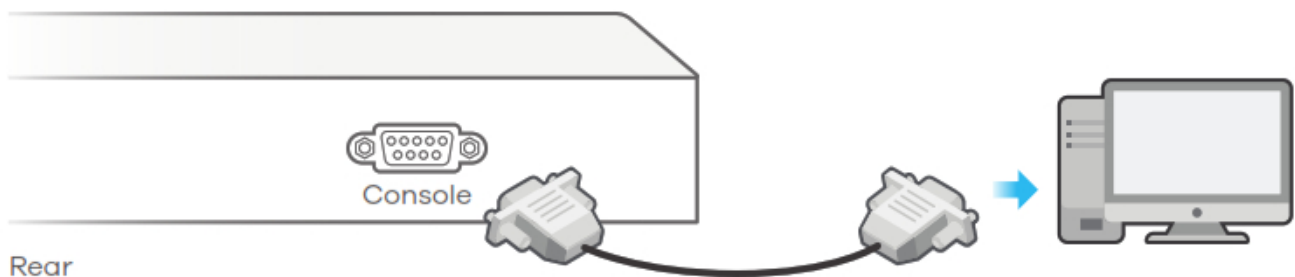

2

Connect your computer to the Switch and make sure they are both in the same subnet.

2. Launch your web browser to access and configure the Switch.

Option C: Configure with Console Cable (Managed Switch Only)

 Terminal emulator configuration:
VT100 terminal emulator
9600 bps or 115200 bps
No parity, 8 data bits, 1 stop bit
No flow control
